For the moment, my hands are now your hands rubbing my body all over. . .up and down

I feel you pinching my nipples, rubbing my chest

Give me pleasure woman and I shall do the rest

Touching me in places that for the moment only your mind has seen
Thoughts of you make my insides tingle
Your body on top of mine and my soul wants to scream

Please, stroke my carnal nature firm, hard and strong
Your sweet sugary walls, they are mine
Right there, right now. . .I belong

To feel my pending, creamy explosions
Bursting deep within
Your pussy is hot, wet and so satisfying
I'm feeling just like I am. . .inside you right now

We come together in mind across this barren space
I want you so badly and I hope you know that one day this hand shall be replaced. . .
With your body, your spirit, your erotic love; a cosmic, metaphysical powerful interconnection

Tonight, I channel my longing to you
I will my deep desires completely towards your direction

For the moment baby. . .

I have cum!!!!!

. . .To the point of wet hands and intoxicating, erotic pleasure

I close my eyes and I see another time and another place
In your land of passion with it's beautiful flowing waters
You shall then see this glorious smile that your love has put upon. . .my face
