When two virgins meet, it has to end well...

I had wanted her so badly.I got a huge hard-on every time I saw her! But, let's go back a little bit. My name is James Conley. Her name was Jessica Halford, Jessie for short. She was a size C-cup breast and had a nice full ass. I wanted her so bad, It was all I could do to not run up and fuck her every time I saw her. Of course, she wasn't very popular.She was also Gothic, so she didn't have many friends, but I was one of the very few she did have. I was a bit Gothic myself, but the popular kids would have none of that Gothic shit in their school I guess. Yes, it was THEIR school. They were the popular kids, after all.

It all started when Jessie came over to play some video games in the den. My parents were gone, and the video game I'd decided to put in got pretty boring after awhile. Jessie suggested Mortal Kombat, but all I said was

"Nah, I play MK all the time. I'm in the mood for The Exorcist!"

"But...but that's a horror movie...I don't know if it's a good idea..."

"It's a great idea! Come on, just watch it with me. I promised the movie won't possess you!"

I winked at her on the last sentence and she giggled. God, even her giggle turned me on! We started the movie, her cuddling up to me, and me trying to hide my huge erection. It was no use. Unless she had some loss of sight, even in the dim light coming from the TV, there was no way you couldn't notice it.

Suddenly, a face popped out on the TV, and she jumped into my arms. Now was my chance! My

parents weren't home because they were staying at a hotel, so Jessie and I had the house to ourselves!

"Sorry James, I..."

"Nah, you're fine. That face was pretty freaky. I don't blame you."

She was about to crawl off my lap and sit back in her spot when suddenly I knew what I had to do. I pulled her head up to mine and kissed her passionately. Soon, the kiss of passion became a kiss of desire and hunger. She was rubbing my erection through my pants.

"Mmmm...Damn, Jessie, aren't you a virgin?"

"Ya, is it showing?"

"No, actually you're hiding it *really* well..."

"Oh, thanks. But...I don't know much about sex. My mom was always afraid to teach me about it. I'm not entirely sure what it is."

I was shocked. An 18 year old Gothic girl who didn't know about sex? This was so weird...and hot. I decided to show her that night. I started by pulling her clothes off slowly, then, once she was sitting next to me naked, I pulled off my own clothes.

"Now, I'll show you what to do. First, you're going to work on me. You can either...uhm...grab my penis, or suck on it. Which ever is more comfortable."

"Uhm....ok..."

She was a little bit hesitant, but she wrapped her hand around my shaft and, as if she'd had really great beginners luck or something, she began giving me the perfect hand job. After awhile of this amazing pleasure I'd never had before, me being a virgin myself, she wrapped her lips around my shaft and began sucking on me as though she was a natural. Maybe she was screwing up. I wasn't sure. I didn't care. This felt so good I didn't care about anything.

"Oh...god...Jessie...it feels so good..."

"Really? It doesn't hurt or anything, right?"

"No...no pain...ever...oh...mmmm...you're so good at this Jessie..."

She smiled up at me knowing she'd done a good job. She seemed really surprised when I came in her mouth. She looked as though she was about to spit it out. She seemed horrified.

"No, Jessie, swallow it."

"But..will I be swallowing pee?"

"Believe me, Jessie, pee is never white. That's called cum. It happens during sex."

"Will it happen to me?"

"Yes."

"Will it hurt?"

I wasn't sure how to answer that. Instead, I decided to show her. I kissed her softly and laid her down on the floor. I kissed her again, kissing down her body slowly until I reached her tender tight pussy, just waiting to be sucked and fingered, hoping for the opportunity. I wasn't going to let it down.

"Jessie, here's another thing people do during sex."

"You suck on...that??"

"Yes, but don't be freaked out. You suck it, stick your fingers and tongue inside of it, after a little bit I'll even stick my penis inside. It's completely natural."

She seemed a bit shocked. Actually, really shocked. Her eyes were wide as she saw me move my head down towards her pussy. But as soon as I began sucking and kissing her soft pussy, her eyes closed and she laid limp on the floor. I licked, sucked, fingered, and kissed her soft pussy, all the while her moans and sighs filled the room. Suddenly, she bucked her hips and came in my face.

"Oh my god, James, that didn't hurt at all!"

"See? What did I tell ya, Jessie?"

"Wait...I'm still confused."

"About...?"

"Are you going to stick your penis in..."

She pointed down to her still throbbing pussy. I knew she wanted me, she just didn't know that feeling, thus she didn't know how bad she wanted me. She was still panting. I nodded at her signaling that it was time. I inched towards her pussy. This was really it. I hoped I did everything right. I didn't know how to handle this part, let alone with a virgin. All I knew was to go slow and gently until I found her cherry and busted it. I decided that was the best option. I slowly eased my way in.

"Agh...owww, James, it hurts, it hurts!"

"Do you want me to stop?"

".....No...it doesn't hurt anymore..."

I was in! It was so exciting! I could feel the inside of her pussy, warm and moist, against my throbbing dick. I knew what was next. I started moving back and fourth, going faster and slower, harder and softer, as I felt she needed. All the while she was screaming instruction as well as moans of pleasure.

"Ohhhhhh....please James...oh....faster...harder...please James harder!"

Suddenly she froze and her pussy contracted in orgasm. She let out a moan and flopped down on the floor. After that, we kissed passionately.

"James, thank you..."

"Anytime, Jessie"
