It all started one night when I got up out of bed, I was very sleepy. I walked downstairs to get a glass of water. I slowly walked down the stairs trying to be as quiet as I could so I wouldn't wake my daddy. As I reached the bottom of the stairs I heard moaning coming from the living room, I was curious so Iwalked over to the door andnoticed it was open a little bit. I looked through the gap in the door I couldn't believe what I saw! It was my daddy sitting on the couch watching porn and playing with himself.

Daddy was pumping his cock and moaning my name. I never thought daddy wanted me in this way. I began to get wet. I creeped back up the stairs and got into bed. My fingers wondered down to my pussy and I started rubbing my clit, then I started fingering my virgin pussy which I have been saving for my daddy. I had a intense orgasm and couldn't help but moan daddy's name.

The next morning I woke up and walked downstairs, daddy was sat at the table eating breakfast so I grabbed a bowl of cereal and went to join him. It was just me and daddy in the house as mum left when I was younger. Dad and I began chatting and I asked him if he wanted to watch a movie tonight as we hadn't spent time together in a while because of daddy's hectic work schedule, he agreed and I finished my cereal and went upstairs and got ready to go out and buy a movie.

As I walked to the movie store I noticed a new shop had opened it was a adult sex shop. I curiously decided to go and take a look. As I stepped inside the store it was like heaven all sorts of toys, underwear, porn movies. I couldn't help but notice they were advertising a new movie called 'daddy's girl', thats whenI had a idea, sinceIknew daddy wanted me. Why not find a way to tell him I want him too? I brought the movie and returned home.

It was getting late and I knew daddy would be home from work soon so I changed into my best silk nightdress and lit some candles in the living room. As soon as daddy got home he went upstairs to change. He came downstairs in his boxers ready to watch the movie but little did he know what sort of a movie it was. As I got up off the sofa to put the movie in the DVDplayer I noticed daddy was staring at my ass so I bent over a bit more to give him full view of my ass and my tinylittlethong. The movie

started, it began with trailers so I snuggled up to daddy waiting for the main part of the movie to start.

The main movie began to start, the opening titles where of a girl screaming 'daddy' out loud while he fucked her. My dad was shocked and jumped up and turned the movie off! " baby we can't watch this its wrong i'm your daddy", he shouted.

"But daddy I want you to take me I want your cock inside me", I replied that's when I saw my daddy's cock grow ! He walked over and leant over me and began kissing me. I wanted my daddy's cock out now! I pulled it out his shorts and began sucking it and stroking it. First I concentrated on sucking the tip, I knew daddy liked this because he was moaning really loud. Gradually I worked his cock into my mouth gagging every time he thrusted.

After 5 minutes he gently picked me up and took me upstairs into his room. He gently put me on his bed andgot on top of me and started to undress me. He kissed every inch of flesh. Then when I was fully naked he began nibbling and sucking my nipples. I felt his cock press against my pussy that's when I told daddy I was ready for hiseight inch cock. He slowly eased it into mypussy.

It hurt to begin with but daddy was so gentle at first thatit started to feel good. He thrusted in and out of me faster and faster. He began moaning my name and fucking me like he has never fucked anyone before. He seemed so hungry for his daughter's pussy. My daddy was fucking me on the bed I was conceived on. Just when I was about to orgasm, daddy shot his load into me. This sent me over the edge and I had the most amazing orgasm ever. I began shaking uncontrollably. Afterwards daddy took me in his arms and we fell asleep together. We didn't talk about this day for months until I missed my period.

part 2 coming soon :)
