Seeing my swedish mom playing with herself, I couldn't resist.

To me, my mom is the most beautiful woman on this planet. She has straight golden blond hair, hazel brown eyes, beautiful full lips, perfect straight teeth and the prettiest smile I have ever seen. She still keeps her perfect body in shape by going to the gym 5 times a week and works as a catalogue model for clothing companies. She grew up in Sweden during the sixties and seventies and because of her nudist parents she is extremely open-minded and a bit wild. She had me when she was only sixteen and my parents split up when I was only four. As far as I can remember I have felt extremely close to her. Her sight, her nice smell and the feeling of her perfect big breasts pressing against my body when she hugged me or kissed me excited me ever since I was a little boy. The story that I am about to tell happened when I was only 16 and a teenager in heat.

It was an unusually hot summer night and I couldn't fall asleep. It was 2 am and I started playing with myself, the best thing I could do on a sleepless night. My bedroom door was ajar and my mom's room was next to mine. As I was stroking my cock, I heard strange sounds coming from my mom's room. It sounded as if she was talking and moaning. I wondered if she was having a bad dream or was in some sort of pain. I finally decided to go check on her and wake her if she was having a nightmare. Her bedroom door was half open and a reading lamp lit her bed. I opened the door carefully without making a sound. My mom was completely naked, a magazine lay open beside her, her eyes were closed and she was pumping her pussy with a vibrator.

I froze. I couldn't look away. I did not want to look away. She was moaning and saying words that I couldn't understand as she pumped her pussy with one hand and pinching one stiff nipple with another. 'Mmm fuck me...fuck my pussy baby...mmm.', she was mumbling. My cock was really hard now and I started fondling it through my underwear. My mouth became dry and my heart was pounding fast. Then my mom slowly opened her eyes. First she was squinting, but then she looked at me with an expression of horror and almost screamed, 'OH SHIT!' I froze. I had no idea what to say or do, then almost ran to my room and got into my bed.
A few minutes passed with my heart and mind racing. My hardon was still there and I couldn't get the image of her out of my head. Then I saw my bedroom door open and my mom walked in and stopped next to my bed. She was wearing her bra but no panties! Her golden blond bush looked amazing.

'Mom I'm sorry...I didn't mean to....', I said as she leaned over me. Her hair smelled of her Lavender shampoo and was intoxicating. She lifted my ass and took off my underwear, exposing my hard cock. Then she took my hand and said, ' It's ok honey. I'm glad you saw me doing that. Get up now. We're going to my room!'

We were laying on her bed right next to each other. She reached behind her back, unsnapped her bra and took it off. Then she put one arm under my head and with her hand reached my right nipple and started pinching it with two fingers. Her own stiff nipple was pressing on my left cheek. With her left hand she started caressing up and down my chest and abs. 'Start playing with that hard cock baby and let Mommy watch.', and she smiled. I grabbed my cock and started stroking it. I knew that I would cum soon. She started kissing my forehead, cheek and nose as I worked harder on my cock. Then she reached for my swollen balls and cupped them with her warm and tender hand.
'Mom...I'm going to cum soon', her face was right above mine and her warm breath was making me go crazy with lust. 'Cum baby...cum for Mommy!', and I shot my cum in the air. It landed on my chest and her arm and breast. She kissed me gently on my mouth and said, ' Now it's my turn baby. You have to help me. Take this vibrator and fuck my pussy with it.' I put one hand on her sexy flat stomach and pushed it down gently as I put the vibrator in her pussy. My face was right above her pussy and I could smell her sex juices. She put her fingers on her clit and started rubbing as I pumped the vibrator in and out of her pussy. 'That's it....faster honey....fuck it harder....cumming!', she said as her body went tense for a minute. She then relaxed, grabbed the back of my head and pulled my face onto hers. She kissed me hard on my lips with her tongue licking mine passionately. 'This was so fucking nice. From now on we are going to have so much fun together. I will teach you everything and you can fuck my girlfriends. You're a fucking lucky boy.', she said and kissed me again. My cock was hard again and I was ready for one more round.
