I have lived on the same street for 18 years. It is a quiet little neighborhood, nothing too exciting ever happens. In the summer all the children play outside together, sharing secrets, laughs and sometimes even an ice cream cone. My best friend lives next door. Her name is Erica and we are so close, she is like my sister. She spends a lot of time at my house because my mother is a teacher and is home during the summer. We have an in ground swimming pool with a large deck that we often use while tanning in the heat of the day. Erica's mom is a flight attendant and is on an International Tour right now and will be gone for the entire month of August.

August had just started and Erica asked her dad if she could spend the night at my house this weekend. Her dad said " Mia lives right next door, do you need to spend the night?" Of course Erica said yes and of course her dad agreed. Erica's dad is very handsome. He is an engineer and spends most of his time with his head in a book. He is about 6'3' in height, 220 lbs or so and has the bluest eyes I have ever seen. He has golden blonde hair and a sexy little smile. Erica was planning on going to see her boyfriend Antonio this weekend. She wanted to spend the night because she was ready to go all the way. Her mom lets her date but since she is out of the country her dad was pulling the strict dad routine. It was odd really because I have caught him staring at me many times, I have even seen him while stepping out of the shower and I glance across the driveway and see him smiling. It never bothered me because he is so sexy.

Friday evening came and Erica and I synchronized our cell phones and had our stories air tight. Erica was coming over to stay the night, if her dad called her cell I would answer it and say "she is the bathroom" then call her on Antonio's phone and she would call her dad from my cell phone. The only thing I forgot was that her dad could see straight into my house. My parents were at the movies and I did what I usually do when I am alone. I stripped down and laid on my bed. Turned the lights down and put in one of my sexy porn movies so that I could masturbate. I spread my legs open and licked my index finger and then began to rub it over my clit. I took my other had and inserted two fingers into my wet hole and began to move my fingers in and out. Just when it was really starting to feel good I hearda noise. I stopped and when I looked up I saw Erica's dad across the way stroking his penis. My

first thought " was oh shit, Erica is going to get into trouble" then I realized that my neighbor was stroking his penis in his window while watching his daughter's 18 year old friend masturbate. He looked so sexy, I was immediately turned on and a little nervous. I decided to tease him and finish the job.

I stood up and moved closer to the window. I pressed my small breasts against my window and my nipples were hard and erect just like his penis. I began twisting my nipples and licking my lips. I blew her dad a kiss and he looked like he was about to explode. I mouthed to him "STOP" and he did. I slipped into my hot pink bikini and hurried down the stairs and out the back door. I knocked on Erica's back door and her dad answered it with his raging hard on in sight. He was red and anxious. I asked him if he wanted to fuck me. He lowered his head and mumbled out "yeess" I said well then we need to get to it. I walked into the living room that I had sat in a million times, played scrabble, computer games and even twister. That twister game would reallycome in handy.

I sat on the love seat and he sat next to me like a nervous school boy. "What is wrong, I asked" , he said " I feel like this is wrong, what if Erica comes looking for you, or if she left something". "Trust me Erica is busy, as busy as we are about to be". I untied the sides of my bikini bottom and it fell to the floor. I slowly opened my legs and told him to touch me. His hands were shaky, yet strong. He slid his fingers around my hot spot till I began to flow with juices. His penis was growing larger and harder by the second. I was so excited I could have cum right there. I closed my legs, and he moved his hand. I took his fingers in my mouth so that I could taste my own juices. I now understand why people eat pussy, oh the taste of the salty, hot wet juice is so good. I grabbed his penis in my hand and began to stroke it up and down. I covered his head with my young mouth. I could tell he was excited to feel my tongue ring on the head of his penis. I knew that he was having serious regrets, that he let Erica get her tongue pierced with me three months earlier. I began to flick my tongue on the op of his penis while stroking it with my right hand. He was grabbing my head and pushing his huge cock deeper and deeper into my mouth. I felt his cock get stiff and he pulled away and shot his load into his hand. He looked so satisfied.

"Did you like that"? "I loved it, Erica's mom hasn't given me head in over 8 years." I told him that it was his turn to make me cum, he slid onto the floor in front of me and slowly spread my thighs. He pulled me to the edge of the seat and lifted up my ass and dug in. He began sucking on my clit, lightly biting it and plunging his tongue in and out of my slit. It was pure ecstasy. Because I am only 18, I have never had a young man make me cum, that is why I masturbate so much. I was moaning and just when I thought it couldn't get any better he stuck two fingers inside of me while sucking my clit hard and I came. I came so hard itwas hyper sensitive and almost painful. I begged him not to touch me for a second, while I gathered my composure. The sight of my ecstasy must have turned him on because he was rising with another erection.

I slid to the floor in front of him and put my tight little ass in his face, so that he could fuck me from behind. He opened my lips and reacheddown, massaged my clit and pushed his cock inside of me. Heentered me with the such force that I fell forward on the love seat. He kept stroking me and I was screaming, it felt so good. He slapped my ass like they do in the movies andeven that felt good. He told me that he was about to cum and asked me if I was on the pill. I said yes (even though I am not) about thirty seconds later he explodedhis hot load inside of me. He held himself inside of me for like another minute and then he removed his cock. I sat inhis lap and we kissed for the first time that afternoon. He began rubbingmy little nipples andsucking my breasts. I told him that I wanted him to fuck me all night. "What aboutErica, where isshe". "Well Erica is busy and after what we just did, I really don't think you will be able to ground her" He looked puzzled. I told him that Erica was losing her virginity tonight.He looked upset, so I straddled him and began moving back and forth to distract him and boy did it work.He covered my lips with his and beganpassionately kissing me. I kept grinding on him until he was hard againand lifted up and grabbed his penis with my right hand and shoved into my pussy. I began riding him, up, down, back and forth he picked me up and walked over to the wall and kept banging me on the same wall, where his family pictures hung. I closed my eyes to avoid seeing hisfamily pictures and he kept stroking me against the wall. " I am about to cum daddy". He stroked faster and harder and I burst, a flood gate of jism ran downhis legs.He put me downso he could re-enter me so he could get his last oneoff.I laid on myright side, he was behind me and entered me from behind. I lifted my left leg and he pounded into me like 7, quick stokes and he came. He came inside meAGAIN.
