Billie had met this guy online and had been flirting with him and he had wanted to take her out. He was always talking about the things he wanted to do with her. They always talked about different things they would do to each other sexually. One thing this guy always told her was that he wanted him and her to do it with another guy. Billie had never done something like that and started to picture it. One guy fucking her from behind and the other ones big cock in her mouth. It was starting to turn her on and she was trying to figure out how it would happen.

He told her he would be with her and any guy she wanted. Well she didn't know whom she could ask to do that with. They were online one night and she finally gave in to his request to be with him and another guy, but he needed to find the guy. She didn't know what she was getting herself into, but she went to meet him and his friend. They both were very nice looking and she was now glad she came and was going to have sex with these two very hot men. They went straight to his bedroom the three of them. Kurt the guy Billie was friends with lead her to the bed she kneeled on top of it. He began to kiss her standing at the foot of the bed. His friend a very tall guy with a baldhead and a goatee started to get undressed as he watched the others making out. He climbed into the bed behind Billie.

He undressed Billie from behind. Reaching around and undoing her skirt and slipping down revealing she had no underwear and exposing her hot ass to him. He leaned down and kissed her smooth round butt. She could not believe these two guys were doing this to her. Kurt had taken her shirt off and pulled the cups of her bra down so he could lick and suck on her very hard nipples. His friend had found his way to her asshole and tickled it with his tongue on his way to her very hot and wet pussy. Billie could not believe this was happening to her. One guy sucking on her nipples, one sucking on her clit. She was getting wetter and wetter with every flick of the tongue. Kurt could fell her body starting to quiver and knew his friend was about to make her explode. He stepped back and watched her as she began to explode in his friend's mouth. He undressed and Billie cam.

The friend was done, sat up, pulled Billie back on the bed, she was on all fours now and he slipped his hard cock in her now dripping hole. He was banging her, she could feel his balls slapping up against her clit. He was so hard and so big she wanted to scream but just couldn't bring herself to let out the noise. Kurt finished getting undressed and put his cock right in her face. She knew what he wanted and she went right at it. She grabbed his cock and put her mouth around it, sucking as hard as she could. She licked the head, she ran her tongue up and down the long shaft. She put it all in her mouth. Oh my, one fucking her pussy, one fucking her mouth what was she doing.

This was amazing she could not believe this was happening. Kurt starting pushing himself faster into her mouth she knew he was about to cum. At the same time his friend was pumping it harder also. She sucked as hard as she could on Kurt and he released his cum into her mouth, she sucked it all in and swallowed it as fast as she could. His friend pulled his dick out of her and she could feel his hot jizm all over her ass. She fell to the bed. The guy behind her rubbed his cum all over her ass as she lay there. Kurt motioned for her to turn over and give him her pussy. He kneeled down and scouted her to the edge of the bed it was his turn to taste her. He knew she had cum a few times and wanted to see if he could make her some more.

The other guys leaned down over her head and started to play and suck on her tits. He was so soft and tender with her. He kissed her neck and her mouth and all over her chest. He then straddled her stomach. His long hard cock pointed straight at her face. His balls resting on her belly. He took her boobs and squeezed them together and shoved her his dick between them. He was titty fucking her, the head would get close to her mouth and she would lick it, he would moan. He would linger at her mouth so she could suck a little harder each time. Kurt was going at her clit, she was very wet and was on the verge of yet another orgasm when she felt him stick his dick inside of her, this surprised her and she gasped. He was fucking her harder now, she was cumming and she felt him do the same. Then this man on top of her begin to cum also, they were like 1, 2,3, his cum ran down her neck as he let it out all over her chest.....Now that was a pearl necklace!!!!!!!!!!!!!!
