## Aunt Janice Comes To Visit Pt2

I sat there on my knees trying to catch my breath as I watched my step mother and her sister continue to kiss. My aunt was still slowly pulling and stroking my now softening shaft. My step mother pulled her mouth from her sister's and turn to watch her dainty little hand stroke my cock. My step mother was still slowly massaging her sister's clit with her fingers. I watched as her fingers would rub back and forth over her sister's sensitive clit and then slide down and disappear into her gaping lips as she fingered her.

"Suck his cock and get it hard again, this time you can watch him fuck me with it." my step mother told her sister.

My step mother had me stand up and walk around to the other end of the couch. I walked up to where my sexy aunt's face was laying, my cock dangling above her face. Me and my step mother watched as she reached up and began to stroke it again. My Aunt Janice raised her head up to where her face was mere inches from my cock. She seemed dazed as she watched her small hand pumping back and forth on the large semi erect shaft. Each time she pulled her hand toward the end of my cock; the head would swell up and turn purple like a big plum from the blood she was squeezing into it.

"Go ahead and taste him, suck on that big cock and make it hard again. I want you to feel it swelling up in your mouth." My step mother told her sister.

My aunt slowly moved her face closer to my cock; I could feel her hot breath blowing over it. She puckered her lips and gently started to kiss the head. The feeling of her warm lips and breath on my cock was starting to revive it. More and more she kissed my cock, her lips where beginning to part a little and I could feel the wetness of her tongue as she would lick at the tip when it parted her lips. It seemed like torture to me, I wanted to push my cock into her throat, but knew I should wait and let her take her time. As we watched, she continued to get more comfortable with the thought of sucking my

cock.

I watched as my lovely aunt worked on my growing cock, I watched as her lips pressed down over the head of my cock for the first time, her lips stretching open to accommodate the size. The feeling of her warm wet mouth and the growing look of sheer lust on her beautiful face was making my cock swell to full hardness. I could feel her smooth tongue on the head and I could see her cheeks collapsing in as she sucked on it. Her hand was starting to pump at the remaining shaft again as her head bobbed around on the head. She pulled her head away and a string of pre cum and saliva stretched from the tip of my cock to her lower lip. The head of my cock was wet and shiny from her spit, as she pumped at my cock a stream of pre cum flowed from the little slit. She hungrily pushed her mouth back down over the head and sucked it all off.

I was so taken by watching my not ass aunt suck my cock that I forgot about my step mother until my aunt started to moan loudly around my thick cock. The vibrations of her moaning felt wonderful as they sent shivers down the length of my rod. I looked back to see what was making her moan and saw that my step mother had worked her way between the legs of her sister and was eating her pussy. My step mother had one of her sisters legs pushed up on the back of the couch and her other leg draped over her shoulder. My step mother was holding her pussy lips apart with her thumbs and was running her tongue up the length of her hot snatch. My step mother's tongue looked so hot sliding up between the wet folds of her sister's pussy. My Aunt Janice's pussy was still full of the white creamy cum I had made while fucking her and my step mothers tongue was hungrily licking it up. God I loved to watch my sexy step mother, she looked so sexy licking that sweet pussy. I couldn't tell what was hotter, watching her or her sexy ass sister suck my cock. I had two of the hottest, most beautiful females I had ever seen there with me and I was in heaven.

My attention was drawn back to my aunt when I felt my cock sliding further into her warm wet mouth. She had only been sucking the head and stroking the hard shaft with her hand; but now her mouth was moving down the rigid shaft. She had her eyes closed and was bobbing her head back and forth, fucking my hard cock with her mouth. I looked back at my step mother, she had her sister's clit sucked into her mouth and I knew she was about to make her cum. My step mother eyes were glued to the site of her sister's mouth sliding back and forth on her step son's hard cock.

My aunt's mouth was pushing down on my cock as her hand held the base. Her eyes were tightly closed and I could feel the moans and grunts escaping her throat and vibrating out around my cock. Then she froze, she was holding my cock in her mouth, her lips were still stretched tightly around the shaft but her head was no longer moving. I could see her chest heaving and her grip around the base of my cock got harder and tighter. Her body started to go stiff, straining as she arched her back off the couch. Then her hips started thrusting up at her sister face. She was grunting and moaning loudly as my cock slipped out of her mouth. She was losing control of her body as the waves of pleasure swept

through her.

Her body was shaking and as her hand squeezed my cock a large dribble of pre cum oozed from my cock and dropped into her open mouth. I watched as it trickled down her tongue and into the back of her throat. My cock throbbed as I watched my step mother's talented tongue lap at her sister's sweet pussy pushing her deeper into the throws of ecstasy. As my aunt's orgasm started to subside and she gained control of her senses, I pushed my cock forward pressing it back in between her red lips. Aunt Janice opened her eyes and looked up at me as her mouth opened to except my hard cock. She locked her lips around my shaft and sucked my cock deeply into the back of her throat.

My step mother grabbed my hand and pulled me from my aunt's hot mouth. She was now kneeling on the floor and I as I turned to face her, she reached out and took hold of my cock. She looked over at her sister with a knowing look as pressed her head forward, pressing my cock past her lips and into her warm mouth. We watched as inch after inch of my large cock disappeared in to my step mother's mouth. I could feel my step mother fighting off her urge to gag and then she swallowed and I felt my cock slip into her throat. She held her face down with her nose pressed against my small patch of pubic hair above my cock. She slowly slid her mouth off my cock revealing a trail of saliva and pre cum that coated my cock. As she pulled her moth from me, her hand circled around my shaft and pumped it fast and smoothly.

"I'm ready to feel this big cock filling up my tight pussy" my step mother cooed.

I positioned her on her knees facing her sister sitting on the couch; I got on my knees behind her and pressed my cock between her ass cheeks. I reached down and rubbed the swollen head of my cock up and down her wet slit. My cock head slid smoothly between her wet pussy lips, I could feel her labia opening up and welcoming my hard cock into her womb. I pushed my hips forward and felt the large plumb size head of my cock pop into the entrance of her pussy. She let of a deep satisfying moan as she felt my manhood lodge itself inside her. I gently inched my cock deeper into her folds, taking my time and savoring every second of the pleasure. My step mother's pussy was velvety smooth and so wet it offered little resistance to the large shaft that was spearing its way deeper inside it.

When I had all eight inches buried deep in my step mother womb, I grab her hips and held myself there. My step mother looked back over her shoulder and said.

"Oh fuck your cock feels so good. Fuck me with it, make my pussy cum, make my pussy cum all over your hard cock."

I started to pull my cock back out of her pussy; I could feel her pussy lips clinging to my hard shaft

and pulling outward as it slid between them. When I was all the way out except for the large head, I pushed back in. Over and over I slowly fucked her with the full length of my large cock. I kept my pace fast enough to drive to the edge of orgasm, but not fast enough to let her get off. I continued to fuck her slow and steady, letting her feel every rigid inch and vein of my cock as it plunged into her. Her pussy was very wet, I could feel her juices covering my cock and dripping off my balls. I knew she what she needed and it didn't take her long to start begging for it.

“Fuck me faster. Oh God, please fuck me faster. Make me cum, fuck please make me cum!”

I started fucking her faster and harder, my cock was plowing in and out of her of her pussy and slamming against her cervix. I could feel the walls of her pussy starting to tighten around my shaft. I used my hands to spread her ass cheeks apart and watched as I pulled my cock all the way out of her pussy before thrusting it back in. My step mother was moaning and screaming how great my cock felt and how I was going to make her cum. My aunt was sitting on the couch directly in front of us with her legs spread wide, rubbing her wet pussy.

My hard thrusts were moving my step mother's face closer and closer to her sister's pussy. My aunt had two fingers buried in her pussy and was rubbing her clit with her other hand. My step mother and aunt were both racing toward another shattering orgasm. My step mother reached up and held onto her sister's legs as I pounded into her wet hole harder and faster. Her face mere inches from her sister's pussy and her face laying on her thigh, my step mother started to scream out in orgasm.

“OOOHH FUCKKKK!!!! God Yes I'm cumming!! Oh fuck I'm cumming!! FUCK ME!! FUCK ME!! OOOHHH YESSS!!!”

I continued to fuck my step mother's pussy as it pulsed around my hard cock. This set my aunt off on her on little climax as she rubbed and fingered her pussy faster. I slowed the pace of my fucking and let my step mother regain her composure, my aunt was also coming down from her orgasm and has she pulled her fingers from her pussy, she offered them to her sister. My step mother sucked her sister's pussy juice covered fingers hungrily into her mouth, making sure to clean them good. I pulled my cock from my step mother pussy, and a trail of her pussy juice and cum ran out of her gaping hole and down her inner thighs. I had my step mother lay flat on her back on the floor and then had my aunt crawl over her in to a sixty nine position. This left my aunt's sexy ass stuck up in the air with my step mother's face below her. I aligned my cock up with my aunt's wet pussy and started to push forward. My aunt's pussy was still tight and cock head had to force its way into her hole. My step mother had reached around and was holding her sisters ass cheeks apart and watching as my cock slowly disappeared into her pussy.

I slowly worked my cock in and out, letting her get used to thickness again. The velvety walls of her

pussy were tight and I could feel them clinging to my hard shaft as I worked it back and forth. My aunt was moaning loudly and enjoying the feeling of my large cock sliding in and out of her tight hole. I could feel my step mother's tongue making contact with my shaft and balls as she licked at her sister's clit. I started to build up a steady rhythm with my fucking motions. My aunt's pussy was leaking its sweet juice out all around my cock and my step mother was licking it up.

I reach forward and pushed my aunt's head down and told her to eat her sister's pussy. She hesitantly started slowly licking around the swollen labia and clit. I could feel the vibrations of my step mother's moans as they escaped her mouth. I started to fuck my aunt's pussy a little harder, driving her closer to orgasm. I could feel my own orgasm building deep inside my balls, and knew it would not be much longer. My cock swelled even more as more blood raced through the thick veins that run around the hard shaft. My aunt was moaning loudly into her sister pussy as she tried to keep her mouth and tongue in contact as her pleasure built.

My aunt's pussy started to spasm and squeeze my cock as wave after wave of pleasure swept through her. I fucked her harder pushing her deeper into her orgasm, the pulsing of her pussy walls were too much for me. I pulled my cock out as the first blast of hot cum shot out splattering on to her gaping pussy. I pressed my cock head right against my aunt's pussy so she could feel it swell as each blast of hot cum shot against her flesh. My cum ran down my aunt's slit and dripped off on to my step mother's face and mouth. I could feel my step mother's tongue licking hungrily at the cum as it seeped from her sisters pussy. I looked down and with my hand pushed my cock down and into my step mother's warm wet mouth. She licked and sucked the remaining cum and pussy juice from my cock.

We all collapsed on the floor, out of breath and gasping for air. As we regained our strength we all went and cleaned up, I passed out in my bed wondering what the rest of the week had in store.
