I am a high school senior who fucks my dad after he cuckolds a neighbor.

The last year has been pretty rough for my father and me. My name is Molly, and at the time of this story I was 17 years old and it was the end of the summer before my senior year in high school. My father's name is Dan and he was 42 years old at that time. We had just moved into a new condominium complex in the Miami, Florida area, following my father's work transfer from Baltimore. My dad had actually requested the transfer in order to move away from my mother following their abrupt and painful divorce.

It turns out that after 18 years being seemingly happily married to dad, my mother was fucking every cock she could find. Dad finally caught her fucking a delivery man in his own bed one day, and then mom admitted all of her indiscretions. Dad was willing to forgive and forget, and even allow her a few sex partners on the side. He loved her so much that he was willing to put up with being cuckolded by her, if she would just tone it down a little.

I really felt a little guilty too. I caught mom fucking a man at home one day, not too long before dad caught her and I never told him about it. I had come home sick from school at about 10:00 am and mom wasn't home. I went right to bed and fell asleep, but was awakened by some moaning noises at about noon. I stepped into the hall and identified that the moans were coming from my parent's bedroom. At first I assumed that dad had come home for lunch and was fucking mom. But then I quietly walked up to the partially-open door, and saw that our neighbor, Mr. Billings, was on top of mom fucking her with his big cock.

I went back to my room and never said anything about what I had seen to either mom or dad. But I just couldn't get the vision of that big cock and those heavily-swinging balls out of my mind. Mr. Billings was about 45 years old, handsome, and in very good shape, and that was probably the start of my having sexual desires for older men. It just seemed like an older man would have the experience to really satisfy a woman.

The sad thing was that mom could not give up her new-found freedom and frequent sex. She had become such a slut that it took very little effort to convince the divorce court that dad would become

my sole legal guardian. Mom didn't seem to care that she didn't get any alimony or even have visitation rights with me.

This move to Miami was to be a fresh start for us. I really hated being pulled away from all of my high school friends just before my senior year. But, dad and I had become very close during the divorce proceedings, and I just knew that everything would turn out well for us in our new home.

I was starting to feel a sexual attraction to dad, but he was so strict with me that I didn't dare try to start anything between us. I'm sure that he was afraid if he was lenient with me that I might become a slut like my mom. However, I do know that he was lonely, and I would sometimes sneak up on him in his bedroom at night and look through the crack in his door. I could see him masturbating what looked to be a very big cock, at least as big as Mr. Billings', and he always shot a huge load of cum onto his belly. He had devoted his personal life to me and wasn't dating any women; probably due to the pain that mom had caused him. He wasn't willing to risk being hurt again.

I suppose that I was a pretty typical high school senior. I couldn't say that I was beautiful, but I was very pretty and had a great body for a 17 year old girl. It was obvious that my big, almost-D-cup tits and shapely ass were a gift from my mom's genes. We looked a lot alike in other ways too. I found myself wondering if I would also become a slut like her someday.

In addition to my mature body, I also had a flirty personality and long, light-brown hair and green eyes. I didn't have much trouble getting boyfriends in Baltimore, but I had not dated much. I was very attracted to two of my male teachers, but knew that they were off limits. I had not met any boys in Miami since we had been here for only two months, and school wouldn't start for another couple of weeks.

Our condominium was having an end-of-summer pool party on the coming Sunday afternoon. The announcement said that this was meant to give the owners in this new complex a chance to meet the other residents. Dad had been reluctant to get involved in any social situations, but when he came home from work on Friday I showed him the flyer and said, "Come on dad, let's go to this party. I haven't met any friends since we've been here, and you need to get out a little yourself. Please oh please...we need to meet some new people instead of just staying inside all of the time."

He looked a little irritated at first, but then said, "Okay Molly, we can go to the party. I've been spending so much time at work on this new assignment that it might be fun to meet some new people."

We went down to the pool area on Sunday and sat down at an umbrella-covered table near the pool. My dad was wearing his swimsuit and a t-shirt. I was wearing a new bikini that really accentuated my

shapely ass, and my tits were barely covered and showed my fullness and sizable cleavage. Dad was not too happy about my choice of swim wear, but he reluctantly agreed to let me wear it. I even caught him looking at my breasts a couple of times while we were walking down to the pool.

Refreshments were being provided by the condo association. We went to the buffet and each got a plate of finger food. Dad got a beer to drink, and he allowed me to get a fruity, sangria wine cooler. This was a private party and no one was checking IDs or anything.

We were sitting next to one another at the table, facing away from the pool. I noticed another couple sitting two tables away from ours, and facing our way. They looked to be in their early-30s. The man was really cute and about my dad's size at six feet tall and about 185 pounds, and in very good shape. The woman was very pretty and had shoulder-length brunette hair and blue eyes. Her bikini seemed to be even skimpier than mine, and her gorgeous breasts were bulging in that small top. I guess I was staring at them, and then the woman caught my eye, smiled, and waved at me. I was a little embarrassed at being caught staring, but I smiled and waved back.

We continued with our snacks, and I looked up again at the couple when I sensed some movement under their table. This woman had a short skirt-type cover over her bikini bottom, and she was slowly opening and closing her legs. I looked more closely and noticed that her bikini bottom was no more than a thong. The thin white material had gathered and was pulled up between her vulva lips. Even from about 15 feet away, I could see her puffy lips and a neatly trimmed covering of dark hair. I'm not sure why the view of her pussy fascinated me so much, but I had a hard time looking away.

She continued opening and closing her legs and I finally looked up to see her staring at me and smiling. I had been caught looking again, and weakly smiled at her before quickly looking away. Then I had an idea to give my dad a thrill and said, "Dad, look at that cute couple over there. They are sitting alone just like us. Maybe we should go over and introduce ourselves."

I looked sideways at dad as I saw him look at the couple. He first looked at their faces, and then I saw his eyes drop down below the table. He could see that beautiful pussy as the woman continued to slowly open and close her legs. Dad kept staring for a few seconds, and then slowly looked up at the woman's face. She was smiling at him just as she had done with me, and dad offered a little smile and looked away. I looked down at his lap and could see a definite bulge in his swim trunks. That hairy pussy had really turned him on. Then he said, "That is a good idea Molly, maybe we should go over and introduce ourselves."

Dad had been so reluctant to meet new people, and especially women, and I was surprised to see him react so quickly to that woman. I guess that it had been a long time since he had any pussy, and he was reading a lot into her actions. It was a little embarrassing to walk to their table after both of us

had just been caught staring at her snatch, but that didn't seem to bother dad.

We gathered our things and drinks and walked over to their table. Then dad said, "Hi. My name is Dan and this is my daughter Molly. We just moved here from Baltimore a couple of months ago and thought that it might be fun to meet some new friends."

The man looked up at us and said, "Oh hi, my name is Ed, and this is my wife Sue. We just moved here from Atlanta and were also hoping to meet some new friends today. Please join us and have a seat."

Then Ed said, "It is interesting to hear that you are father and daughter. We were trying to figure out what your situation was, given the apparent age difference. It's not unusual to find younger-older relationships in the Miami area."

Then I laughed at his inference that our relationship might be anything other than father and daughter and said, "That's a little sick Ed. I'll be starting my senior year in high school in a couple of weeks."

Then Sue spoke up and said, "Well Molly, I'm glad that you feel comfortable calling us by our first names. You seem like such a mature girl even though you look very young and are just lovely. I'll bet you'll break a few hearts this year at school."

I replied, "Thanks for the compliment Sue. And by the way, my dad and I were also noticing what an attractive couple you are."

I don't want to bore you with all of our conversations at the pool that day. We just continued to talk and let them know that my dad was divorced and a computer engineer, working for a big company in the area. We also learned that they were both 32 years old with no kids, and Ed worked for the airlines. Sue was a teacher, but she had not yet been able to find a job since their move.

I noticed that Ed seemed to focus most of his attention on me. I was amused that he just couldn't seem to keep his eyes off of my big tits. I even caught him checking out my ass when I went to get more food and drinks. It was very arousing for me to be treated like an adult by such a hot, older guy. I also noticed that dad was focusing most of his attention on Sue, and was also staring at her tits and ass every chance he got. We stayed together for the rest of the afternoon, and then reluctantly went back to our condos.

The next morning Dad got up early and went to work. I slept in and didn't get up until about 10:00 am, and then decided to go to the pool. I wanted to enjoy the rest of my summer before school started. As I entered the pool area I saw Sue relaxing on a lounge chair next to the pool. She looked fantastic in

the same bikini that she had worn on Sunday, except that she wasn't wearing the little skirt. The bikini bottom material wasn't pulled into her vulva anymore, but I could clearly see her big pussy lips and hair through the thin material. There was another lounge next to her, and I walked up and asked, "Hi Sue, do you mind if I sit with you?"

Sue looked up at me, smiled and said, "Please join me Molly. I was hoping you'd come down here today. Ed and I really enjoyed getting to know you and your dad yesterday."

I said, "Well, dad and I really enjoyed meeting you guys too. I probably should apologize for my dad staring at you so much. You are a beautiful woman, and I know that I was staring at you too at first. But you have to admit that you were teasing us a little too."

Sue laughed and said, "Well, I should probably apologize to you too. No matter how hard he tried, Ed couldn't seem to keep his eyes off of you. You are really a well-built girl, and as I said yesterday, you seem to be mature beyond your years. It was easy to forget that you are still in high school, even though you look so young. And, I have to admit that I was teasing you guys."

I said, "Why would you be teasing us like that. It's not that I mind or anything, but I'm just curious."

Sue said, "Well, since you asked, I'll tell you some very personal things if you promise to keep it just between us girls. I can sense that you will be able to handle what I'm going to tell you."

I said, "Sure Sue, I'll keep it between us. I'm just happy that you are willing to confide in me."

Then Sue continued, "Let me know if I'm embarrassing you and I'll stop. Ed and I have been married for 10 years and we have always been faithful to each other and have a good sex life. But then a couple of years ago things were starting to get a little stale in the bedroom. We decided to engage in some harmless fantasy play to enhance our sexual relationship. Then we were making love one night and Ed asked me what my favorite fantasy was. I let him know that I wanted to go out in public dressed in short skirts and tight blouses with no panties or bra. I wanted to tease older men, and even women with my skimpy clothes."

Then I said, "Oh my goodness Sue. Weren't you afraid that men would come on to you and try to have sex with you?"

She said, "At that point I never intended for anything to happen, so I wasn't thinking about being pursued. But eventually, my fantasies evolved to the point that I was thinking about actually having sex with other, older men and Ed was very supportive."

I said, "Wow! That is pretty hot, but since my mother being a slut caused my parents' divorce, it's hard for me to understand all of this. If you don't mind me asking, have you and Ed ever acted on those fantasies? Also, what is Ed's fantasy?"

Sue smiled and said, "We haven't found the right situation yet for me to fuck another man, but we were close a couple of times. And when I tell you Ed's fantasy you'll understand why he was staring at you so much yesterday. He wants to have sex with a young girl, but one who is of legal age. And to be perfectly honest, we had our greatest sex in years last night. Ed was fantasizing about having sex with you, and I was fantasizing about fucking your dad. I hope that doesn't upset you or gross you out. I think your dad is hot and Ed and I both think you are hot."

I was a little stunned at what Sue was telling me, but also very flattered and turned on. I decided to tell her the truth about my fantasies and said, "Holy shit Sue that is so kinky and hot. I also have a desire to fuck an older guy. It all started when I saw my mom fucking an older neighbor. Since then I have been fantasizing about having sex with two of my high school teachers and even my dad, but I've been afraid to bring it up. I have secretly seen him masturbating. He has a big cock, probably eight inches long and very thick, and he shoots big loads of cum."

Sue got a funny look on her face and said, "No offense Molly, but I'd really like to feel Dan's cock in my pussy. I also know that Ed would love to fuck you. But I have to ask, are you still a virgin? And would you even be interested in fucking Ed."

I was really enjoying this adult conversation with Sue and said, "Well, I've never actually been fucked. But, when I was 16 years old, I did use one of my mother's dildos a few times and busted my own cherry. I'd enjoy having Ed be my first cock since he is so much older than me. Do you really think we could make this happen?"

Sue paused for a minute and said, "Maybe Ed and I could invite you and Dan over on Friday night to play some cards or something. I could distract Dan by having him come to my bedroom where I keep my computer to help me with some software problems. From the way he was staring at me and seeing that lump in his pants, I don't think it will be too hard to get him to fuck me. Then you can entice Ed to make a move on you. Ed's dick isn't as big as Dan's though. He's about six and a half inches long and fairly thick, but he does shoot a lot of cum. That might be a good size for your first fucking."

Sue thoughtfully paused for a moment and then continued, "I could let Ed know that I plan to act on my fantasy and will lure your dad to my bedroom to help with a software problem. I won't tell him about our whole plan and that you are aware of it; just that he should also try to seduce you, allowing Dan and me some privacy. You'll need to entice Ed and make it very clear that you are open to

having sex with him so he won't be too hesitant to make a move. Because of your age, I'm sure that he'll want to be sure that he has your full consent. Then after Ed fucks you, you both can come into the bedroom and surprise us. From there, we'll just play it by ear."

Then I asked, "Well, should I try to let my dad know that you plan to have sex with him, just so he has a little warning? I'm a little afraid that he will be very angry with me for fucking Ed. All hell could break loose when we walk into the bedroom naked, and me with cum running down my legs."

Sue then said, "We probably shouldn't tell Dan anything ahead of time since he has been so strict with you. If we are successful at making this wife-daughter swap, I expect that your relationship with your dad will change significantly. I'll find the right time to tell him that Ed is fucking you, so the shock will be over. I'll also take charge of the situation when you come into the room. Once he sees you naked and knows for certain that you were just fucked, you should be able to entice him as well. Being daddy's little girl will take on a whole new meaning for you guys. But are you sure that you are willing to go ahead with this? And what about birth control? I stopped taking the pill a few months ago because Ed and I are trying to have a child. I finished my period about seven days ago and should be fine. I just have to feel his cum shooting into my pussy, so I don't want your dad to wear a condom. I'm regular enough with my cycle that I'm fairly certain I'll be safe."

I was so happy that I had begun taking birth control pills before we moved to Florida and said, "Yes Sue, I started the pill a couple of months ago. I guess because my mom is such a slut dad just wanted to make sure I was protected in this confusing transition. But, I also just finished my period anyway, and will be safe for Friday night."

Having made our arrangements, we enjoyed the rest of the day at the pool. I was home eating dinner with dad when the phone rang and it was Sue inviting us over for Friday night. I wasn't surprised that dad immediately accepted after asking me. Of course I agreed right away. I was sure that he was infatuated with Sue, although I know that he had no idea just how lucky he would be Friday night. And I would be lucky too, being fucked for the first time, and by an older man.

The rest of the week passed slowly, especially since I saw Sue at the pool a couple of times and we kept talking about our plans. I was very anxious to have my first sexual experience, and time seemed to stand still. But it was finally Friday. By the time dad got home I had already taken my shower and was wearing some loose shorts with no panties and a tight t-shirt with no bra. Dad got his shower and I suggested that he also wear comfortable shorts and a polo shirt. He questioned my wearing a tight t-shirt with no bra as being too revealing, but still allowed me to wear it. Dad wanted to be a gracious guest and had gotten a chilled bottle of sangria wine, so we headed out of the door and across the complex to Sue and Ed's condo. I caught him glancing at my big tits as we walked and my tits were constantly jiggling in that t-shirt.

We were warmly greeted at the door by Sue and Ed. She was wearing an outfit similar to mine, and was absolutely stunning. It's all dad could do to quit staring at her tits as we went into their living room and sat on the couch. Sue thanked dad for the wine and then got some glasses filled with ice and served it to all of us. We just sat around talking for the first half hour as we drank the wine. Then Ed pointed to the card table set up in front of the window and asked if we wanted to play some cards.

Sue winked at me and spoke up and said, "I'd like to play cards, but first I was wondering if Dan, you could help me with some software issues on my computer? If so Ed, maybe you and Molly can watch a little TV or something until we get back."

Dad and Sue headed to Sue's bedroom and Ed and I stayed on the couch and talked. Finally Ed got the courage to make his move on me and asked, "If you don't mind me asking Molly, do you have a boyfriend yet? It must be hard moving just before your senior year and having to make new friends."

That gave me a chance to encourage his advances and I replied, "I won't be able to meet any boys until school starts a week from now. And besides, I find that most of the boys my age are immature anyway. I usually like older boys, but it's hard to meet any since I'm a senior now. I even had a crush on two of my male teachers back in Baltimore, but they never paid me any attention. Maybe they were just afraid of me causing problems for them. But I still had to wonder if I was pretty enough for them. Tell me the truth Ed; do you think I'm pretty?"

I'm sure that Ed was now thinking it might be easier than he imagined seducing me, as he listened to my remarks. So he encouraged me further saying, "First of all, I thought from the moment we met last Sunday that you are a beautiful girl. Honestly, I have a hard time keeping my eyes off of you. And if you don't mind me saying so, your figure is wonderfully developed and you are very mature for your age. But I am curious about something. How old are those teachers that you had a crush on?"

I giggled a little for effect just to seem more girlish and said, "It was pretty obvious to me that you were staring at my tits on Sunday and tonight too. So I kind of guessed that you at least liked my figure. But thanks so much for your nice comments. As for those teachers, I think one of them was 31 years old and the other was 33, just about your age. Why do you ask?"

Ed cleared his throat a little and said, "I was just curious what it means for you to have a crush on a man my age? What would you have done if they had shown you the attention you wanted?"

This was all developing faster than I could have hoped and I said, "Well, it's embarrassing for me to admit this to you Ed, but I would probably have tried to have sex with them. And I at least was curious about what a grown man's cock looks like. I have seen my dad's cock when he didn't know I was

watching him masturbate. But that's not the same as seeing another man's cock. I'm getting very excited and all wet down there just talking about this. Would you let me see your cock Ed? My dad is always very thorough when he works on someone's computer, so I think he and Sue will be busy for quite a while. Please Ed, show me your cock."

Ed was so excited now that his face was red with excitement. And, he probably assumed that Sue was being fucked by my dad at that very moment. But he still wanted to be sure that I was giving my full consent for what might happen, so he said, "Oh shit Molly, I'd love to show you my cock. But once I do that you might want to do more than just look. And I know that I'll want to do many more things with you. Are you sure that you want to get this started, even if we end up fucking?"

I knew that I was only seconds from making this happen and said, "Just drop your shorts and let me see your cock. And I can tell you right now that I'll definitely want to fuck you. And don't worry Ed, I am on birth control, and I broke my own hymen with a dildo late last year. But you will be the first cock to fuck me."

Ed's hands were shaking as he unfastened his shorts, lifted his ass, and slid his shorts and underwear down to his ankles and then completely off. I was now staring at his rock hard, six and a half inch cock, and he was already dripping with precum. This was all a new experience for me and I reached over and took his thick cock in my hand. His vein-covered meat felt wonderful in my hand and I began stroking him. I then reached over with my other hand and scooped up some of his copious precum and brought it to my tongue to taste it. That really turned Ed on more and he said, "Oh fuck you little slut, go ahead and suck my cock. You've already tasted my precum. In the meantime, take off that t-shirt and let me feel those gorgeous tits of yours."

I quickly pulled off my t-shirt and Ed gasped loudly when my full, heavy tits swung into view. He reached out to rub them as I dropped my head to his lap and sucked his cock into my mouth. It tasted wonderful, especially with all of his juices. I continued sucking him while also playing with his balls with my hand, while he kneaded my breasts. I had no previous experience with this but knew after a few minutes that he was getting close to ejaculating when he said, "That feels so good Molly. You are a natural cock sucker and if you don't stop now I'll cum in your mouth. Stop sucking me and lie back on the couch. I want to suck your pussy and then fuck you. I can hardly believe that I am going to fuck a virgin high school senior."

I took off my shorts and lay back on the couch totally nude. Ed got between my legs and lifted my legs over his shoulders as he covered my thick, hair-covered vulva with his mouth. This was also my first experience having my pussy eaten out, and I just loved it. The strong emotions of this first experience overwhelmed me, and I soon had my first orgasm from having sex with a man. I reached down to hold his head in place and said, "Oh damn that feels so good. Now get up here and fuck me

with your nice cock. I want to feel the first load of cum shooting into my pussy.”

Ed lifted his head from my pussy and moved on top of me. He kissed me briefly, giving me a taste of my own juices, and then leaned down to suck my tits as he got ready to push his cock into me. He moved his hips to push the head of his cock up and down through my wet vulva, and then said, “Okay get ready Molly. I’m going to push my cock into your vagina now. I’ll go slowly at first, so just let me know if you are uncomfortable and I’ll stop. I can’t begin to tell you how exciting it is to fuck a young woman like you. I can’t wait to fill your cunt with my semen and sperm.”

Then he pushed into me and I could hardly believe how great it felt. Since I didn’t complain he started stroking me and then he said, “Your virgin pussy is so tight on my cock. I’m only going to last a few more minutes. I wish I could last longer for you this first time. But I’m so excited to be with a young girl like you and you have already sucked my cock almost to the point of ejaculation. I’ll be filling your pussy with cum soon. But don’t worry; we can fuck again and again if you want to. I could never get enough of your sweet, clean, and tight cunt.”

After a couple of more minutes Ed pushed hard into to me and held himself in place as his cock pulsed and throbbed, unloading his cum into the depths of my pussy. He pulled out after it softened a little and said, “Oh fuck Molly, it was so wonderful fucking you. I hope that it was good for you.”

Then I replied, “Oh yes it was great for me too. I feel like a woman now, and will fuck you as often as you’d like to. But for now, we need to go to your bedroom. You must realize by now that my dad has just fucked your wife, and I want to see them together.”

Ed and I were both naked as we walked into the bedroom and stood just inches from the end of the bed. Dad was lying on the bed next to Sue, both of them naked, and they were smiling at us. Then Sue said, “Don’t worry Molly, I have already told Dan that you were being fucked by Ed tonight, and he isn’t angry. After all, I waited to tell him until he was balls deep in my pussy and starting to shoot his load. I just loved being fucked by his big cock. He filled me up in a way that Ed never has, and I hope this is only the first of many times.”

I looked at dad with tears in my eyes and said, “Thanks for not being angry dad. I’ve wanted to be fucked by an older man since the first time I saw the neighbor fucking mom, and then secretly watching you masturbate so often. And I have wanted to have sex with you ever since.”

Then Sue continued, “Okay, here’s what we’ll do. I would consider it an honor if you two would let Ed and me witness your first time having incestuous sex. And to get things started, Molly you get up here on the bed beside your dad in the 69 position. Then you can both suck the fuck juices off the other’s genitals. And Ed, I want you up here next to me so we can do the same. Then we’ll just let nature

take its course.”

I crawled between Sue and dad on the bed and sucked his softened cock into my mouth. It was covered with Sue’s juices and the remnants of dad’s cum and I loved the taste and the feeling of all of their juices and his larger cock in my mouth. It also felt wonderful when he covered my swollen and cum-covered vulva with his mouth and started sucking. I was draining the last of his cum from his cock at the same time he was sucking Ed’s cum from my pussy. Sue and Ed were also sucking each other clean, and Sue was in a position to give me another surprise. I felt her little hand rub and caress my breasts, and I was burning with desire to do the same for her as soon as I had the chance.

We continued sucking our respective partners until dad’s cock was fully hard and I could barely get it into my mouth. Then I pulled away and turned around in the bed facing dad, and after deeply tongue kissing him said, “Daddy, I love you so much. Please make me the happiest girl in the world and fuck me with your big cock. I have wanted this for months now.”

Then dad rolled on top of me and said, “I love you too baby, and I have also dreamed of fucking you. But I just didn’t know how to let you know. I’m sure that I have over compensated by being so strict with you, but we can change all of that now.”

Then dad leaned down to suck my tits as his huge cock pushed into my already-fucked pussy. He was stretching me in a way that Ed couldn’t have. He was taking slow and deep strokes, trying to be gentle with me, and I could feel him pressing softly into my cervix on each down stroke. Sue and Ed were just lying next to us in an embrace watching this first coupling of father and daughter, and I reached over to rub Sue’s shapely tits. It all felt so nasty and yet so right, and I knew that I would need a lot of cock from then on to keep me satisfied.

I know that dad was as excited as I was at this first father and daughter sex. Even though he had ejaculated into Sue earlier, he was soon ready to shoot his load again. I was having constant orgasms as he tensed up and I could feel his cock head against my cervix, flooding me with his incestuous seed. Then we kissed deeply again and he rolled off of me. I was surprised as Sue moved over to suck dad’s cock clean of our juices, and Ed got between my legs to suck me clean of dad’s cum.

This was the start of a new way of life for all of us. We continued to meet with Sue and Ed both as a group, and individually when the sexual urge was there. Sue and I also began having sex when Ed and my dad were not around to fuck us. I just loved sucking her tits and pussy, just as much as she loved sucking me. And at times when it was the two guys fucking just one of us girls, the guys would also suck each other’s cocks to get ready to fuck and to clean up afterwards. As you might have guessed, Sue also got pregnant that night. We’re not sure who the father is and don’t want to know.

But both dad and Ed fucked her that night, although dad shot the first and deepest load into her fertile pussy.

One final great thing was that I began sleeping in dad's bed almost every night. I kept my room for when I needed privacy or when friends were over. But I ended every night in bed with dad, sucking and fucking his big cock to my heart's content. I decided to go to a university in the Miami area so I could live at home. So dad and I had five years of great sex together before I moved away for a job in Atlanta.
