The First Night with My Step Sister

Let's start out with a little information about myself back then. I was a very popular guy in school; I was good looking, well built, I was a jock. I had my share of fun with other girls at school, some moms and now my step sister. If you like this story I will continue writing and letting you in some of my hotter encounters.

My Step Sister Lori was a pretty good looking girl; she was about 5'6" with auburn red hair, cute little face with some freckles. She had a hot little body with some nice tits and a great little ass. She came to live with us during our high school days. We were both the same age and in the 10th grade. Most of the family lived upstairs, except for me and her. We lived down stairs in the basement. I never looked at her sexually until we started remodeling our basement. We added a TV room on one half and were building our bedrooms in the other. So for a while we had studs up but no wall built. You could look right in to the other person's room. After while we got used to each other and quit running into the bathroom to change clothes or get ready. We started undressing and dressing when we thought we could without the other seeing. I caught her plenty times changing clothes and I am sure she caught me. I never tried to hide. After seeing her body a few times I started wanting her to see my hard muscular as much as possible. I wanted her to want me.

Well one night I got home pretty late and I thought everyone was in bed. I got undressed and climbed into my bed. I usually just slept in a pair of gym shorts or sometimes nothing at all. It wasn't long after I got in the bed I heard some moving around. I was thinking, maybe I woke Lori up and she was going to the bathroom. A few moments later I heard footsteps and they sounded like they were right in my room. I heard Lori whisper, asking me if I was asleep. I turned over in the bed letting the sheet fall down my chest to expose my hard chiseled chest to her. I told her no and she came on in. She said she wanted to talk and I moved over so she could sit on the bed. We talked really about nothing. It was dark but you could still kind of see each other with the moon light coming through the windows at the far end of the basement. As she sat there on my bed wearing only a short tee shirt and thong panties. I got more and more excited. She asked me about our practice that day and I had told her my

shoulder was a little sore. She offered to rub it for me. She told me to turn over and she got on her knees on the bed beside me and started rubbing my shoulders. Her small hands felt so good. I could feel her leg with the side of my arm. I was getting so hard as I laid there.

She moved her hands slowly down my back and was giving me a great massage. As she got down to the small of my back and started to move the covers down over my ass she noticed I had nothing on. I could hear her breathing getting deeper and I could have sworn I heard a little moan or something as she moved her hands lower and lower. As she reached the base of my back she started running her hands up and down the sides of my back, letting her fingers tickle my skin. I was dying. You could tell she was enjoying touching my body as much as I was enjoying her touch. Her hands started to go lower and lower down my sides until she was running her hands down over my hips and down my thighs. I slowly started to move around, I was squirming I guess you would say. I told her how great her hands felt and how much I was enjoying this. She told me she was enjoying this too and that she wished her boyfriend would work out and get his body looking like mine. She started telling me how all of her girl friends would die to be doing this and it would be hard to keep this a secret from them. She told me that they all thought I was so hot and wanted me. We both kind of laughed and I turned over feeling her hands slide around my body. Now as I laid there with the sheet barely covering my raging hard on. She slowly started rubbing my chest. I moved my hand and started rubbing her leg. I watched her close her eyes and could hear her take a deep breath in. I could see her nipples starting to poke through the thin tee shirt she was wearing. I could tell she was as nervous as I was. We both wanted it but at the same time we were both scared to cross that line.

She said that she had better be getting back to bed, and I knew I had to stop her. I moved my hand up to her back and looked at her. She froze as she looked back at me. I told her to stay, and she leaned forward as I pulled her to me. Our lips touching for the first time, slowly her soft lips parting as my tongue felt it way inside her mouth. As our tongues found each others the heat was incredible. My mind was racing; I was not sure how far she would let this go. As we kissed each other, our hands started to explore each others bodies more and more. I had worked my hand under her shirt, but was only rubbing her back. I did not want to press my luck and mess anything up. I felt her hand sliding down my chest and over my stomach, lower and lower. I could not believe it. As her hand found my hard cock for the first time, I felt her fingers close around it, and stroke it a couple of times. She broke off the kiss, as she looked down in disbelief. She sat there looking at my hard cock as her hand moved slowly up and down it. My precum was running out the slit and running down over her fingers. She looked back at me and said,

"You are a lot bigger then my boyfriend."

Now being a jock and being in locker rooms most of my life. I knew I was not huge, but I knew I was not small or average either. I had a nice thick cock, between 7 ½" and 8" long depending on how

turned on I was and nice and thick as well.

She slowly leaned down more and shifted a little till her face was right over my cock. She kept jacking it and I could feel her hot breath on the head. She reached her tongue out and licked the precum off the head. I could feel her moving her head lower and felt her warm wet lips parting as my hard cock slid into her waiting mouth. I could feel her tongue slapping around the head as she started to suck. One hand still stroking the base of my cock as licked and sucked on the head. I reached under her shirt and found her breast. Her nipples were as hard as rocks. I rubbed her tits and pinched her nipples as she started to squirm more and more. She was taking me deeper and deeper into her mouth and moaning around my cock. I knew I could not last much longer if she kept this up and I wanted more of her. I pushed her back and off my cock. Laying her down on my bed I started to pull her shirt off, exposing her B-cup breast and hard nipples. I kissed her first tasting me on her lips. Then I kissed my way down her neck and across her chest, until I came to her nipple. I flicked my tongue over it, and moved my mouth around it to suck it into my mouth. I sucked and licked her nipples while my hand worked its way down her body. As my hand rubbed up and down her legs, I felt her legs parting, giving me clearance to her wet pussy.

I ran my fingers across her mound and could feel how hot and wet her pussy was though the thin material of her panties. As I kissed my way down over her belly, I tugged her panties down her legs and threw them in the floor. I kissed and licked my way lower until I could feel the heat coming out of her pussy on my face. I reached my tongue out and licked up and down each side of her pussy. I ran my tongue around her inner thighs and right up beside her pussy without touching her most delicate spot. She was wiggling and trying to touch my tongue with her pussy. I kept teasing her until she could not take it anymore. As my tongue ran up between her pussy lips for the first time she let out a moan I was sure everyone in the house would hear. She almost came right then, as my tongue slid up past her clit, I went back to licking around her pussy a few times before I would run my tongue up between her lips again. This was driving her crazy; she was moaning and moving all over the bed. I had her legs over my shoulders and began to lick her good. I was running my tongue back and forth over her clit and sucking it softly into my mouth. She started fucking my face with her pussy and her breath was getting heavier and she started to gasp. I could feel her body start to shake and then she put her hand in her mouth and bit down to stop from screaming. Her whole body was heaving as she came down from what I found out later was her first real orgasm. I buried my tongue as deep in her pussy as I could as wave after wave of pleasure washed over her. As she started to come back down, I rose up and crawled back up her body.

I reached down between us as I looked into her eyes; I grabbed my hard cock and started to rub it over her sensitive pussy. I could feel her body starting to shake again, she reached down and grabbed my cock and pressed it against her sweet opening. I started to push my dick into her, God was she tight. As the head of my cock pushed past her lips and lodged inside of her, her eyes went

wide open and I felt her gasp for a breath. I stopped pushing to give her time to get used to the feeling of a big dick inside her. I leaned in and started to kiss her and I slowly rocked my hips back and forth. With each push forward I could feel my cock start to slide deeper and deeper into her. Before long I had a good 6" sliding in and out of her pussy, and she was going crazy. I could not believe I was fucking my hot little step sister and had her cumming all over my hard cock.

My step sister put her hands on my ass and started pulling me deeper into her. She wanted what was left of my cock inside her pussy and I want to give it to her. I started to fuck her harder, but also tried not to make too much noise. So I just started pushing harder and harder on the down strokes and holding myself deep inside her before pulling back out. She started to pant again and I could feel her tight pussy starting to contract around my hard cock. She started to moan and again and told me not to stop.

She started repeating herself, "OOOOHHHH God...OOOOHHHH God, FFFFUCK MMMEEEEEE. I'm CUMMMMING. OHHHHH God I'm cumming again."

That was it. I felt her start to shake and her pussy started to leak all over me. I had never felt anything like that. But seeing her with that pleasure on her face and feeling her tight pussy milking my cock I knew I was about to cum and I knew no matter how badly I wanted to I could not cum inside my step sister. I told her I was about to cum and she told me to come on her. I started to fuck her faster and I could feel the cum starting to boil up from my nuts. I pulled out of her pussy and she reached down and grabbed my cock and started to stroke it. She pulled on my cock and started talking like I have never heard her talk before.

"Give me that cum, come on and give it to me. That big beautiful cock fucked me so good, make it cum for me. I want to watch it; I want to feel it squirting on me."

She started sitting up and pulling on my dick. I felt it coming and leaned in a little. The first squirt hit her chest and then she put her mouth over my cock and started letting my cum shoot into her mouth and run out the sides. After I had stopped cumming, she moved her mouth from my cock and looked up at me. Cum was still all over her lips and chin.

She looked up at me and said,

"I think I am going to like staying down her with you" Then she got up and left.

Let me know what you think of this first story, I have plenty more involving her and her friends and even my step mom and her friends moms. Hope you enjoy.
