Heather's drunk cousin catches her masturbating

I saw him sitting there, he looked calm as usual as he chatted politely with our aunts and uncles. My cousin who I thought was absolutely gorgeous was only sitting a few feet away, and yet I knew I could never have him. I do not know when this attraction began but I could not keep my eyes off of him. He stood at about six feet and two inches with broad shoulders and muscular arms. All the nights I dreamed of the arms around me were the nights I masturbated visioning him in my bed. I know it is wrong but I could not help these feelings. Jake, was my cousins name he was 21 and I 19. This was when a family party changed our lives forever. We were merely cousins that briefly talked at family gatherings and had our individual lives. But who knew this night would change our entire relationship.

The party had ended, Jake had stayed at our house, being drunk off his ass. The rest of the adults went out all night. As soon as they left Jake and I went to watch a movie in the den together. It was a comedy but honestly I was not paying attention. Thoughts of undressing Jake flooded my mind and sent shivers down my body.

As we sat and watched the movie I felt my pussy start to leak into my panties. I knew I was becoming hornier by the minute and Jake had no clue what was going on. I wanted and needed release, the tension and sexual frustration was too much for me. I was unable to pay attention to the movie and Jake was constantly asking if I was okay when I did not laugh at. So I excused myself to my room and told him I was tired from the party.

I practically ran upstairs and tore off my clothes then shut the door. I was left standing over my bed with a laced red bra and panties that matched. I quickly unhooked my bra and began to caress and massage my 32 C breasts. I teased my nipple with my finger tip and then pinched it, that always turns me on. I was so horny and in the moment I pushed my breasts up and began to lick my own nipple. I got it far enough to my mouth to suck on it, I was caressing the other with my fingers. I moved on to the bed after awhile to relax.

I layed there on my bed as my breathing became short. I slid my panties off, lifting my butt into the air, and then throwing them across the room. I could feel tiny drops of wetness roll down my butt. I

could not believe how turned on I was thinking about my own cousin. It was crazy but it felt so good. I ran my finger along my thighs, and up higher until I stopped at my pussy. I moved the tip of my finger over my clit and started to rub. I wanted to make this last and tease myself, I wanted the best orgasm of my life. If only Jake were here I am sure that would have been accomplished I thought.

I went back to teasing my clit rubbing it up and down softly. I moaned softly as I pushed down harder. I felt the bulb inside my clit stiffen. I was dripping even more and it became a little puddle on my sheet. I could feel my temperature rising my body was hot. But I was not going to give in just yet. I continued rubbing harder and faster in circular motions. And I guess I became too loud with my moans.

Jake had been standing there in my door just staring at me. I had not noticed until I opened my eyes and saw the hallway light on and a reflection on my wall. It scared me and I immediately covered myself up. I was terrified and did not know what he was going to do. Or if he would tell my mother. I thought for sure I was in trouble.

I was surprised, Jake did not say anything he just stood there. I did not know what to say I was just embarrassed. I was about to explain in anyway I could. That was before he walked over to my bed and sat next to me. I was shivering, but this time for fear. I did not expect what he was about to do.

"I could hear you moaning my name." He said to me with a smirk I could barely make out.

He then reached over and grabbed my hand from under my blanket and placed it on his pants. He was so hard, I could feel it pulsing and twitching through his jeans. He was turned on watching me masturbating and moaning his name. He stood there watching me getting turned on. I was glad and so relieved as I felt more of him.

Jake pulled the cover off of me and stared. He told me I did not have to hide, admiring what he saw. He kissed me on the forehead and then traveled down my body with more kisses. He went to my neck down to my belly and then back up again. This time he pulled me into him kissing my lips. It was deep and hot, I could feel his lips around mine sucking and biting. They were so soft and felt heavenly pressed against mine.

As we kissed I felt his hand over my pussy, rubbing his palm on my clit, slowly. He leaned over my body his chest against mine and kissed my neck. He continued to rub my clit with his palm. I was in paradise as I felt my own cousin rubbing his body against mine and his hands on my pussy.

Jake pulled himself off of me to then took off his shirt revealing the body of a goddess. He had a six pack with a chest as hard as rock. His arms were huge without them flexed. The best part was when he slipped his pants off, along with his boxers. His dick flung out of boxers and I was shocked, it was

huge. I would say it had to have been about 9 inches and three inches in thickness. It was the best dick I have seen thus far.

After taking his clothes off he went back to kissing me. Only this time his fingers traveled from my clit and down to my hole. He began to massage it without entering me. This made me wetter and I knew I was dripping on his finger but he did not seem to care. I moaned as he pushed his finger and another into me. He had his index and middle finger inside me going in and out and it felt amazing. He would go deep inside and then curl them up before pulling them out again. He would do this and then twist his finger inside.

I was so turned on that I almost forgot about how hard dick was just for me. As he fingered me I reached over and grabbed his dick. I rubbed the tip of it feeling it twitch in my hand then began jerking him off. I pulled it slowly and then pushed my hand back to the base of his dick. I did this over and over quickening my pace each minute.

Jake was moaning and started to thrust his hips as I continued jerking him off. He was throbbing and I felt precum dripping onto the head of his dick.

After a few more thrusts he came and shot cum all over my hand. He had his fingers stroking through my blond hair. He began pulling it back, grabbing strands of my hair between his fingers. My head flung back as his huge hands tugged harder as he came for the next few seconds. After his tugs became strokes through my hair he rubbed my shoulders.

I sat there pleased with myself, making him cum so much. I licked up all his cum off my fingers and hand, it tasted salty but so good. It was amazing being able to please my cousin and licking him off of me. It made me happy, but he was not done with me.

After he calmed down he went back to fingering me. This time he was more focused and did it harder, faster, and deeper. It felt so good, I was twisting and turning under his chest. He was like a crazy person fingering me, there was no stopping him. I was close to having the biggest and most explosive orgasm I have ever had in my life. My butt was pushed up off of the bed and my knees were trembling. I was getting closer to my orgasm, the kind I dreamed of at night. But even better because I knew I would have it with Jake.

In a couple of minutes I was holding onto Jake's back, scratching at his shoulders, moaning and screaming out his name. He fingered me deeply and twisted his fingers all around the inside of my pussy, and I began to cum. I had one last scream before I felt the euphoric release of my orgasm. My legs were still shaking as I lay beside Jake. Sweat was dripping down my legs as I calmed and laid there panting and out of breath. I lay like that for a few minutes in his arms waiting for my breath to return to normal.
