*Incest is best with loving family*

<http://www.lushstories.com/stories/incest/how-we-made-out-with-each-other-part-4.aspx>

My name is Eddy, I am sixteen and this is my story of how I became involved in sexual incest. Before all this happened, I had tried using a condom to jack off my cock while I watched porn on the computer.

A rubber on my cock was entirely unsatisfactory. The feeling was so diminished that I refused to ever wear one after I actually started fucking. There was really no need as all the cunts were on the pill.

My story all started a week ago on Friday night when my sister Valerie had a bad and unsuccessful experience with her boyfriend Johnny trying to lose her virginity.

Val then decided that she wanted it to be my cock that ate her cherry. That was just so she could tell her friends at school that she had promised that she would no longer be a virgin. on Monday.

Then mom arrived home from a business trip. She caught Valerie and me fucking doggy style. We were on the floor as we fucked so that we could watch the video that we made of the two of us each losing our virginity

Our mom, Jennifer, quickly became the threesome in a family incest orgy. We all had an insatiable appetite for sex. The idea of incest that each of us were willing to partake as we learned of the sexual delights of a mother and her children made it even more delicious.

Now this weekend, mom's sister, Mitzy and her virgin daughter Becky were here for the event for losing Becky's virginity.

I was enjoying the thoughts that it was my cock that was going to eat my second cherry in one week. How could a guy get so lucky?

Even more so was the fact that this weekend I would have four different cunts to fuck to keep me fully occupied and sexually satisfied.

Here I was, a sixteen year old about to have my own harem. A harem of all of the sexual delights that any Prince in the “Tales of a 1000 and One Nights” could possibly dream of partaking. Four naked and willing damsels paying homage to their virile master’s fully erect manhood..

Both mom and Mitzy recalled their own sexual initiation by their daddy into the world of family incest. It was with the full approval of their own mama. She was also daddy’s sister.

Mom and Mitzy had both had given their cunts to their daddy mama were the ones to bring both of their daughters into a life of incest. That had also resulted in both girls getting pregnant. Our mom, Jenifer, had Valerie and me.. Mitzy had Becky.

Becky, Valerie and I delighted in hearing all of the lurid incest details. We asked them again and again for the details of the sexual adventures of our mothers Jenifer and Mitzy by their own mother and father.

I liked the idea that it would be my raging hard-on that would be entering my cousin-sister Becky’s willing and receptive pussy. She was letting me be the first to fuck her succulent and tasty pussy and willingly allow me to enter her vagina. I was to be the one to take her virginity and fill her cunt with her first load of sperm filled semen, my sperm.

Mom then herded us to her master bedroom with its king size bed. Where Becky and I were the stars of the show.

We engaged in extended foreplay of caressing, kissing every part of each other’s body. There were two beautiful young tits to fondle, kiss and suck.

Becky had the same small size breasts as her mom, my mom and my sister. I detested large oversized mammary glands like the udders of some bovine milk cow.

Then came time our mom’s had ordered and directed Becky and me to perform a 69. It was a very delightful position for both of us to be in. She quickly learned to fellate me.

I had already become proficient in the art of cunnilingus. I had licked the clitoris and vulva of my own mother and sister many times over the past week.

Becky’s pussy had the most delightful aroma. The taste of her fresh young pussy love juice was just out of this world.

She and I were now both ready to consummate our incest union in full view of my mom, sister and with full knowledge of Becky’s mother as they all watched. The cameras were rolling.

Mitzy was the one that prepared her daughter so Becky could cede her maidenhead to me, Eddy.

She had a pillow under her hips. Her mom used both hands to spread her daughter thick vulva lips

wide so my mom could in for a close up video of the hymen that I was about to make disappear.

Mom showed Becky what her cherry looked like.

Mitzy then just used a thumb and forefinger to spread the plump pussy lips. I noticed that she made sure that the small erect clitoris was stroked several times. It caused Becky to shiver in ecstasy at her mother's touch.

Now, Mitzy reached and took hold of my engorged cock and rubbed and lubed it up in the slippery wetness between the cunt lips of her daughter. She then aimed my male member into the vaginal opening of her young girl to make her a bona fide woman.

My ego soared and became as inflated as my raging cock in the knowledge that I was chosen to actually have my hungry cock eat its second delicious virgin cherry within seven days.

I pushed in and hit the fleshy barrier protecting Becky's virginity as she cried out.

"Mama, It hurts, he is too big, please mama, do I have to let him fuck me?"

Mitzy replied, "Do it, do it, fuck her, break it, show us her virgin cherry juice blood. Let us see that she is not virgin anymore!"

All eyes were on my cock as I withdrew from Becky's extremely tight cunt. Everyone but Becky was extremely elated as another member of our incest family lost her virginity.

My ego was brought to new heights as the laughing, cheering and clapping occurred. Through her tears, Becky had a smile of pride.

My cock was once again introduced into the tight love canal. I slowly worked myself deeper into her tightness, until I touched the second barrier, her cervix. Becky trembled and stiffened. She grabbed my ass cheeks and held me tight inside her.

Becky cried out, "Mom, I just had a fantastic climax, Oh, it feels so good now. Eddy, please do that again. I love the way you feel filling me up. I want you to keep fucking me, I want more orgasms."

I continued to fuck a little harder on each inward stroke. I was surprised with her strong orgasmic response. I continued to fuck Becky. She was so much more sexually active than my mom or sister.

I held my cock head tight against her cervix as all too soon I pumped my sperm filled semen deep into her womb.

Mitzy was shaking in lustful desire. She was clawing at me to make me disengage from her daughter, "Eddy, I need you! It's my turn now, Eddy. I want you to fuck me and make me cum like that! Fuck me Eddy, hurry up and fuck me!"

My mom and sis were surprised at the outburst. They quickly returned to their own incest 69.

I quickly moved from the cunt that I had just fucked, and without any further preparation, I slid my still hardened cock deep into my aunt's eager and waiting cunt. It took me a little longer to fill her demanding desire for me to fill her pussy. Just as I had done for her daughter.

It was the next day that Mitzy stayed in the bathroom for an extraordinary long time. When she emerged, she cornered me in between my fucking anyone else.

"Eddy, I have always wanted to be ass fucked. I have just taken an enema and cleaned my self out. Please, Eddy!"

I told her that I didn't like the idea of fucking an ass hole when there was a real nice pussy available.

She insisted saying, "I am real good and clean, Eddy. I even have some special lubricant. I know I am real tight back there, I have done it with my fingers, but I want to feel a cock fucking my ass, Please Eddy!"

I finally agreed. The others had seen ass fucking on Porn and wanted to watch the real thing.

She took the doggy position and had my mom lube up her sister's ass hole and my cock. I rubbed the cleft in her ass cheeks as she moaned her pleasure at the feeling.

Finally I push against the brown rosebud. It was resisting the invasion. I used a little more force. I almost quit when she groaned in pain, but she told me to keep trying.

At last, her virgin anal sphincter relaxed enough and I slipped in. no more than a couple inches. My cock felt like it was being squeezed in a powerful vise. She was complaining that it pained a lot. I was also in pain. She was so tight , I could hardly move. Finally we both agreed to cease the attempt.

I was having a hard time withdrawing my cock from her tight ass hole. My cock head is bigger tha the shaft. We were both having a lot of discomfort as I tried to pull out of her.

I tried to will my erection to wither away, but it was like there was no way for my blood to flow out of my cock. We were hung up together like a bitch and dog right after fucking.

My mom got some ice cubes to hold around my cock shaft. After awhile it did the job and my aunt and I were released from bondage.

She went to take a sitz bath while I tried to relieve the pain in my raw and sore male member. I wasn't going to try ass fucking again, that was for sure. I washed my cock for fifteen minutes to make sure it was clean.

I was so sore it took almost 24 hours before I wanted to fuck or even have my cock sucked.

After that, I was again enjoying all the pleasures of a 1000 and 1 nights.
