Valerie and Eddy were virgin brother and sister until that one night

How We Made Out With Each Other

My name is Eddy, I am just 16, 6' 3", 150 pounds, skinny, brown hair and wear glasses. I am certainly not a jock and not into sports. I am a computer geek, I can fix them, program them, and I watch lots of porn.

My 17 year older sister is Valerie. Val is 5' 6", maybe 125,, light brown hair to just below the shoulders, her small tits are no bigger than 34 B. They are nice and firm and beautiful, just the way I like them,. They are so gorgeous. I am a small tit lover, I don't care for big titty gals that look like they have Jersey cows in their family tree. Val has a slim waist that swells to 35" hips. Val has a small trimmed crop of heart shaped pubic hair just above very succulent, tasty and fucking pussy. She also has gorgeous long legs.

We live with our single mother, Jennifer. She is only 35 and is an almost exact older edition of Val. She is upper management and required to do a lot of traveling. Mom leaves Val and me at home alone together while she is away for up to several days at a time every few weeks. Val and I never knew our father. We do just remember our grandfather and grandmother that both died 12 years ago.

Val and I started our incestuous fucking on the night of the big homecoming football game. That had been on Friday in the afternoon. I watched as Val was one of the gorgeous girl cheerleaders showing off their bodies and legs in their tight sweaters and short skirts so I could very often see their panties as they cavorted doing their routines.

The final score of the game was a lopsided victory for our team. Even Valerie's boyfriend Johnny got to play in the last few minutes. The Coach used as many of the bench warming players as possible to use up all of the timeouts.

Val had gone out with her boyfriend that night to their homecoming dance. I was shy and had never even dated a girl. That night, I sat at home staying up late watching a variety of porn shows on my computer in the family room. I was surprised at 11:30 when I heard a roar of Johnny's car and a screech of brakes in the driveway. Then there was a car door slammed as the engine revved up as the

car backed into the street and sped away.

Val entered and slammed the front door. She was holding the hem of her first evening gown up around her waist. It was all rumpled and stained. I could see one of the shoulder straps was broken and hanging loose. She was sobbing and it was the first time I had ever heard her swear,

“If I ever see that stupid son of a bitch idiot Johnny again, I’ll kick him right where it will hurt him the worst!”

She ran down the hall to the bathroom. She banged the door going inside. I continued watching the porn, figuring that I wouldn’t see her again. I could hear the shower going for longer than usual. Then more doors banging when she went to her bedroom.

I then went to my bedroom and to bed. I undressed completely as I always sleep in the nude. I hate being tangled up in night clothes while I am sleeping. I had just dozed off.

My shoulder was being shaken violently. I opened my eyes to see my sister Val kneeling on the bed next to me. She was wearing only her baby doll nightie.

“Eddy, wake up Eddie, please wake up Eddy!, I need to talk to someone and mom isn’t here. Please Eddy, I am so unhappy, let me tell you what happened. At the dance, Johnny spent most of the time talking to the other guys on the football team. Before everyone started to leave, I finally got him to leave, I promised him that I would finally let him really make out.

We went out to Spooner’s Lake. All he wanted to do was talk about is his playing in the big game. Then for a few minutes he was roughly feeling me up.”

Val continued, “All I wanted was for him to make love to me. I was willing to give him my virginity. When he got around to actually paying attention to me, he started pawing at me, he was like a wild beast. He tore at my gown trying to get to my tits. I didn’t want him to ruin my dress the first time that I ever wore it.”

She went on to say, “I offered to suck his cock off, I had only done it once before. He had bragged about it to his buddies at school and we almost got suspended.. He had me unzip his pants to get his cock out. I was just licking him up and down and hadn’t even put it in my mouth yet. He didn’t warn me that he was going to cum. It shot all over my face and the top of my dress.”

Val confessed, “My pussy was leaking in my panties and I wanted to finally find out what it was like to really fuck. All my girl friends had told me about their first time and how good it felt later after they lost their virginity. They said they loved the feel of a hard cock pumping in and filling their pussy with hot cum. They keep asking me when I was going to let Johnny fuck me? I told them this afternoon, during the game, that I sure wanted to do it tonight. “

Valerie went on, adding, “After he squirted cum over my face, my tits and all over my dress, he put his

cock away. He then said he had to go to hang out with some of the gang to talk about winning the game. He drove me home.“

“Eddy, I tried to finger myself to a cum in the bathroom and in my bed, but I just couldn’t seem to get myself off. I am so hot and bothered right now, I need you to help me, Please Eddy! I will even let you be the one to pop my cherry, I am so horny. I can’t go back to school Monday and tell all my girlfriends that I am still virgin.”

Valerie then removed her baby doll night gown, she wasn’t wearing the panties that go with it. It was the first time that I had ever seen my sister totally naked. In fact, it was the first time that I had ever seen any real live naked girl. Just those that are on porn sites that I visit regularly.

Not only was I gazing at my first real naked girl, that girl was my very own sister.

I hadn’t said anything, as she knelt beside me on my bed. I had just let Val talk out all of her frustrations. I gazed at her beautiful small tits and small patch of fluffy heart shaped pussy hair. It had been neatly trimmed so she could wear a bikini or a thong. I was actually seeing her gorgeous puffy pussy lips. My cock was hard and throbbing. Val noticed the movement under the sheet.

Now she ripped the sheet back off of me, exposing my nakedness and a cock in full erection and oozing pre cum. She gasped in surprise as she stared at my cock. I noticed that she was involuntarily licking her lips.

“Oooooohhhh, it is so beautiful! It is so nice and big. Why does it look so much different than Johnny’s? His has so much skin that it covers the end of his cock. Your’s doesn’t have any. The end of your cock is so much bigger around than the rest of it.”

“Well, I only have a small amount of foreskin because I was circumcised right after I was born. When I had my physical exam for school a couple months ago, I asked the doctor about it. I had noticed some of the guys, when we showered after gym class, that there were some like me and others were different. He said that it was easier for a circumcised penis to be kept clean and the large head was a normal development because the glans wasn’t restrained by a tight foreskin. I asked him what the glans was. I was informed that was the correct name for the head of a penis. He also told me that I would find out that many women would find that they received much more satisfaction from me because it would take me longer to orgasm because my penis wouldn’t be as sensitive as one with a full foreskin.”

Val was stroking my cock with both hands. “I like the way it looks, I think it is so beautiful and big.” She then bent down to kiss my hard-on. She was licking my pre cum leaking from my piss hole. “ Ummmm, you taste a lot better than Johnny. I bet the flavor of your cock love juice will be a lot more tastier, also.”

She then proceeded to lick my shaft and finally she put my cock in her mouth and began sucking hard and voraciously. She was making all sorts of sucking and slurping noises. I had seen many Porn

Blow Jobs on my computer, but to have it done in person was so wonderful.

I had also seen a lot of “69” performances. That was what I really wanted to try, a 69. I was able to pull Val’s hips up over my face with her legs on either side of my head. I could see that her pussy was glistening with her own excitement and lust. As she lowered her pussy to my mouth, I had my first experience of being able smell the wonderful aroma of an aroused cunt just before I was able to taste the flavor of pussy love juice for the first time. The aroma and savory juices were well above what I had even dreamed of how wonderful they could possibly be.

I could see that her labia were puffy and just slightly parted as my tongue touched between her sweet tasting pussy lips for the first time. I quickly found that I was going to become a confirmed pussy eater. Her clitoris that was swollen in her lust for fulfillment of her desire for her sexual satisfaction. She shivered as I began tongue fucking her delicious cunt and sucking her clit as each of us explored our needs for release of our pent up passions. I felt her body quake and stiffen as I brought her to her first orally induced climax. The fact that that we were brother and sister engaging in a sexual act of incest did not seem to bother either of us.

I was fast approaching my climax. “Val, I’m going to cum, Oh, I can’t hold it back, I can’t hold it any longer.”

Valerie didn’t stop sucking and I ejaculated into her mouth. At the same, her body tensed and went rigid with her second orgasm. She collapsed on me as I struggled to try to breathe. We both rested for a few moments and finally moved so we were face to face.

We embraced each other and began open mouth kisses. We each were able to taste our own love juices on the others lips and tongue. We both moaned in realization that we loved the taste of our own sex juices as well as each other as our hands roamed lustfully over the others nakedness.

I had done a lot of reading about the proper way to prepare a woman to make her crave having a hard throbbing cock fucking her wet clasp pussy and giving her orgasm after orgasm until her lust is sated for a time, at least until the next time. I read where a woman loves to be cuddled, gently caressed and with kisses all over her trembling body. She does not want a slam, bam, thank you mam. A woman wants all the necessary loving to make her feel loved. I was practicing what I had learned on my sister Valerie and I could tell that she was loving every bit of it. She was now ready. As well as I was ready. Each of us are now prepared to give our virginity in total incest, brother and sister.

“Eddie, I want you to fuck me, I am still virgin, I was willing to have Johnny’s cock eat my cherry, but he will never touch me again. I want you to do it and be the first to fuck your cock up my pussy and take my cherry. Please, oh yes, please Eddy, I want you, I need you to be the first to fuck me!”

Now it was time for two virgins, brother and sister, to come together in what would become their incestuous love affair. With my 16 year old hormones raging every moment of the day and night, I had explored the net in my search to understand everything about sex. It was now payday, the

ultimate

I had seen on computer porn what a hymen actually looked like before and after sexual intercourse as an erect cock entered the love canal and ate the girls cherry. I heard her cry out in pain as she surrendered her maidenhead. The cock was then removed for a few moments to show the streaks of virgin blood on the head and shaft as a trickle of red coursed down over the girls ass hole onto the sheet. I knew that there was pain associated with the girl losing her virginity.

I had checked the many ways of preventing most of the unpleasantness for the female the first time she was fucked. I decided to use the missionary method with a pillow under Val's ass to properly position her vagina for the initial penetration of my cock as we were going to willingly give each other our virginity.

I explained to my sister what I had learned and she agreed. As we assumed our places, I asked, "Val, are you sure that you want me to be the one to fuck you? I have never done this with a girl before! I don't want to hurt you."

"I know it is supposed to hurt when you break my hymen. All the girls say there may be discomfort to downright pain, but they say it is only the first time. After that, they told me that there is nothing that feels so good as a nice hard cock fucking them to orgasm. It is so much better than when they finger themselves."

Val added, "My best friend Betsy says that her boyfriend Joe loves to lick her pussy, but his cock inside her is so much better. I want your cock to eat my cherry and then pull out so that we both can see my cherry juice. Then I want you to put your cock all the way up inside me and fuck so that we both have a cum. I want to feel you shoot your sperm deep into my womb."

I just had a frightening thought. "What if I get you pregnant, mom would kill both of us. She would probably cut my cock off first."

"We don't have to worry about that, Eddy!. Mom put me on birth control pills on my sixteenth birthday. She told me that she knew that kids now day were all having sex. She didn't want some pimply teen aged boy knocking me up. She said we didn't have the support group to help out like she did when she got pregnant with you and me. So, you see Eddy, it is safe for us to fuck any time we want to."

Valerie positioned her hips on the pillow and spread her legs wide to prepare for my virgin cock to penetrate her virgin pussy. "Eddy, first I want you get a mirror and a flashlight. I want us both to see what my hymen looks like before I loose it. Also get the digital video camera so we can have a picture of it."

I did as she asked and we were just able to observe her maidenhead just about an inch up inside what was soon to become her love fuck canal. She used both hands to pull her pussy lips apart so I could adjust the mirror and light so she could see what I was looking at. She was giggling as I took a number of videos of her entire body, and extreme close-ups of her pussy and hymen. I then set the

camera up on tripod to record our first incestuous fuck session.

I knelt between her legs and bent over her with straight arms supporting myself on either side of her chest. My cock was throbbing in anticipation of fucking my first pussy, my sister's pussy. I told her that she should use a thumb and forefinger to open her pussy and use the other hand to rub my cock back and forth between her labia to get it all lubed up so it would go up inside her vagina much easier. She did as I asked. I also noticed that she blatantly made sure my cock head made good contact with the clit that had emerged from hiding under its hood a number of times.

"Do it, hurry Eddy do it! I want you inside me, I am so excited, I need you to fuck me now. Please put it in me, please, I need to feel you inside me. I want to know what it is like to fuck!"

"Oh yes, Val, just like that. I love the feel when you make my cock touch your clit just like that. Now put the head of my cock at the opening of your vagina."

I began pushing into her. She was so tight, it felt so good that I was afraid that I was going to cum long before my cock had eaten her cherry and totally filled her love canal. My cock head was just inside her vaginal opening. I could feel when I touched a fleshy barrier that I knew was her hymen. She moaned in pain as her maidenhead surrendered fully and was no more.

I pulled back out, I wanted both of them to see her cherry juice on my cock. I made sure that the video camera could get a good picture of the evidence that my cock had taken my sister's virginity.

"Oh, Eddy, it hurt but not like some of my friends said. Now, please, I want to know what it really feels like to be really fucked. To be fucked my first time by my own brother. That seems so nasty to do. I'm so excited that it is incest. Teri admitted her dad fucked her and her mother didn't care. Teri said that her mother was tired of sex and that her father could fuck his own daughter. It really excited me when she told me that. Now, I want my own brother to fuck me, I almost had a cum as soon as your cock touched my vagina."

"Do it, I want you to fuck me, I want to feel your sperm filled semen fill me up, I want you to make me cum over and over. I need you to do what Johnny couldn't do. I want you to fuck me. Eddy fuck me until we can't fuck any more."

And we did, I fucked my sister and she fucked me, her brother over and over until we were both exhausted. And we slept together. Our mother wasn't due back home for another two days.

But that is another story. I hope that you will look for it in the near future.
