Yes we are truly best friend

In my teenage years, my mother was always my best friend. We were really close. We did everything together as I was growing up; we even took baths or showers together from time to time together. Since dad was always working I spent almost every night in bed with mom snuggled closed to her. I would always remember the scent of mom as I snuggled closed to her during those bad thunder storms. Mom would always tuck me in close to her body and I could feel her breathing in my ear. I always felt so safe in my mom's arms.

It was a sunny Saturday afternoon, and mom was out at the pool, getting her tan, and reading the current issue of playgirl. I so admired the way that her chest raised up as she took each breath. From my view upstairs I could see the hard points of her nipples. Every so often she would reach up and flick her nipple. Was what she was reading exciting her? All that I could do was watch her as she would put her suntan oil on and glide her hand up and down her body. I could not see if she was touching her pussy but her hand stayed down there quite awhile.

Even when we lay in bed at night sometimes mom would put her arm over me and her hand somehow would rest across my nipple. After awhile of that happening I would feel my nipple hardening under her palm and have to get out of bed and go in the bathroom to masturbate. I would always look in the clothes hamper and see if mommy had any of her soiled panties inside. If I did find some I would smell them and be in heaven as I knew that I would always have an orgasm. Her scent imbedded in the crotch.

As the sun went down, we ate dinner, and then we watched some TV. Soon my mom called from the bathroom and said that it was time for my shower and that she had started the water running for us to take one together if I wanted to. We stripped our clothes, and when we got undressed, I noticed that mom's breasts for the first time had the longest and thickest nipples that I had ever seen. The last time that I had seen mom's pussy she had it shaved and today her pussy had a big bush of hair covering it. Actually, she hadn't shaved since the last time we took a shower together. As she stepped over the tub I just couldn't stop staring at her breasts and pussy. She asked me if I liked what I saw. I was in a daze, brought myself back into reality and said. Mom's eyes had been glazed over most of the day since she had come into the house.

"Yes, I'm amazed how interesting your body looks, I just can't stop staring"

She then got closer to me and we kissed passionately for the first time. I kissed her back, sticking my

tongue in her mouth, moving it around in circles. She leant me back into the water, my back set against the shower wall. She started to pinch my nipples on my breasts. I started to moan softly, that felt so good!

We got out of the shower, by this time we had finished my pussy was soaked and wet, we went upstairs. She pushed me on my bed, and I spread my legs out as wide as I could. She had an excellent view of my tight wet virgin pussy. She tenderly spread open my big puffy pussy lips and put her tongue to my wet cunt. I wanted to have my orgasm right there; instead I just moaned and started. Convulsion ran all over my body! She started sucking on my clit then, running her tongue up and down my inner pussy lips! With that my breathing started to get faster and I let out a soft moan: "Oh, God, suck my clit, feels so good, stick your tongue in my wet pussy, that's it right there!" I told her to get the vibrator out of my dresser. (as most girls of my age we all have sex toys like dildos and vibrators, so no wonder to find out that girls usually make fun with such devices!)

When she came back, she turned it on and gently moved it up and down my pussy lips. I could hear its buzz low sound and I could feel the vibrations, she was going to tease me! I really loved that, she teasingly put the tip of the vibrator inside my wet pussy then quickly took it out, and rubbed it up against my clit! She did this for a few minutes and then stuck it deep inside my pussy, in and out! The small vibrator worked well going in and out my wet pussy. She started going faster and faster, soon it was just too much for me to endure. My body was thrusting with hard and heavy rhythm of the vibrator, I started shaking and thrashing like a fish in the net, letting my body convulse in wild waves of pleasure! I let out a long moan. She started licking up my pussy as my juices started squirting out. I laid there looking at her lovingly and very pleased. "My turn!" she said, I sat up quickly and pushed her onto my bed. I was ready to eat her pussy badly, kiss and bite it, tease it vehemently; I could see it dripping with her juices. The moment passed by and now my lips touched her pussy and clit! I knew she was in heaven. I started licking gently; she started to moan softly, begging me to do that faster. Going against her wishes, I started to tease her with my tongue; I started from kissing her breasts gently, sucking on her beautiful nipples and getting them nice and hard! Then I continued working my way down kissing her pussy, moving my hands up to her breasts and pinching them hard, twisting them. I then started licking her clit up and down, sliding my tongue in and out of her soaked pussy, it tasted so good!

I loved the taste of her juices. I picked up the vibrator, and put it in her wet pussy, rubbing it over her clit for just a second! Then I put the tip of the toy into her pussy teasingly. I then put the vibrator all the way in really hard, going in and out in and out! She started moaning begging me go faster and harder. I started to go faster, then I pulled it out with force and teasingly moved it over the hole of her ass! I started going around in circles along that lovely pink tight hole, before sticking it in. I then gently slide it into her ass. I started moving it in and out, faster and deeper each time! At the very same time my mouth was sucking on her beautiful puffy clit, licking up her juices! I spread her pussy lips gently so I could move my tongue in and out with the vibrators rhythm. She couldn't take it anymore, I could see her body started to convulse in a raging orgasmic wave, she let out a long moan: "God, I'm cumming! And started thrusting and thrusting her hips furiously, her juices squirting into my mouth! It tasted so

good, I lapped all her juices as her body started to settle down.

I could tell that her orgasms were very strong, I had done a very good job for it was my first time giving oral to a woman. I loved every minute of it. Mom turned over on her side and fell asleep. I cuddled up next to her. This wouldn't be the last time we took a shower together. In fact, that was just the beginning of an even closer relationship.
