I had always desired over her. When I was younger, I would lie in bed at night listening to my father fuck her in their room, adjacent to mine. I would stroke one off to her moaning, as I imagined myself in my father's position, ramming her cunt hard. They would fuck almost every night, and sometimes for over an hour, however I would cum immediately to my mother's passionate pants and moans.

I knew even touching her with intent would never happen, it was taboo, and I'm sure she wouldn't ever dream of it. She was about 5' 7", about 180 lbs, with just enough chunk to make her ass plump and her tits so voluptuous. She had long brown hair, and crimson eyes, she was surprisingly beautiful for 45 years of age.

It was my 18th birthday. A great birthday, but my family never celebrated that wildly, so the day was relaxed, yet satisfying. My dad was away on business, in Russia. After the celebrations, at around 8:00 PM, I returned to my room. I was browsing the internet for a while before I decided I wanted to see some porn. I was 18, my hormones were raging, and I would masturbate to pornography at least twice a day. I started to watch some sexy MILF action. Just before I started stroking to it, (underpants soaked in pre-cum), my mom had called me downstairs to tell me my uncle was stopping by the next day. I managed to hide my erection on the way downstairs, but I did have a pre-cum stained on my lower underpants, next to my thigh. I doubt she noticed, but she did know I masturbated, a lot. She would occasionally find and remove old t-shirts and underwear that I would use as cum-cloths without me knowing. I returned to my room, shut the door, and sat down passionately stroking my rock-hard cock to some big tit MILF getting fucked.

About half way through my "session," I heard her walking upstairs. We were alone in the house and I knew it was her as I heard the cute little thumps of her bare feet hitting the hard wood steps on the way up. Panicked, thinking she was going to walk into my room, I quickly turned off the porn and put my cock back in my pants. I was only wearing a t-shirt and underwear, so my erection was still visible. I sat quiet, listening to her walk down the hallway, but she turned and walked into her room, and shut the door. I sat there waiting her to walk back downstairs so I could resume jerking, but instead, I heard something different. I pressed my ear against the wall and heard her moan quietly. She was masturbating with her vibrator. I knew immediately I would masturbate to the sound of this instead, it

always made me orgasm much more satisfactorily than any porno could.

All of a sudden, I heard her stop, but I knew she didn't finish; she always gasped innocently when she finished. I realized I was sitting next to the wall, pumping so hard that it could be heard from her room. I was in a state of panic, and I couldn't deny what I was doing. A few seconds later, she burst into my room. She glared at me and said, "What were you doing?"

I sat awestruck, she was only in panties and a tight little t-shirt, it was so revealing.

After a moment, I responded, "I was just finishing up some homework..."

She quickly replied, "You were masturbating, I could hear you."

We both knew she was right, there was no denying it. She walked over to my desk and sat down, at eye level with me.

She said, "It's alright. It's only natural, there is no reason to hide it." After another moment she said, "In fact, I masturbate too, and I know you can hear me when I do."

She leaned in and gave me a calming, motherly kiss on the forehead.

I said, "If you know I can hear you, why do you continue?" She openly responded, "Because, I find it erotic that my son is listening to my moans of pleasure. It's sick, I know. Just please don't tell your father."

Immediately, I said, "I find it just as erotic. I've always found the sound of you and dad having sex erotic."

After about ten seconds of sitting there, she looked my in the eye and and smiled cutely. I gave her a slight grin back and before I knew it, she had leaned in and started kissing my softly on the lips. I quickly did the same, and after a couple seconds of this, I felt her sweet sensual tongue glazing over my lips and into my mouth. I gave her a taste of my tongue, and we were enjoying the moment. At this point, we both knew each other were into it, and it made me all the hornier.

She stopped and looked down at my throbbing erection. She grabbed my hand and led me into her room onto the bed; her vibrator was still sitting there. She pulled me on top of her and we continued our passionate kissing. she slowly led her hand down my torso and softly grabbed my cock. I tilted back, and took off my shirt. She had always complimented me on my lean build, and chiseled abdomen. I saw her eyes scan my body up and down, at this point I knew she was dripping wet. She

followed by taking off her shirt, showing her perfect C-cup tits. She grabbed my hand and put it on her tit. I groped it as she started taking off my underwear. She pushed me off of her, and onto my back. She bent down and started kissing and licking my penis. I was so hard, my cock was red and dripping with fluid. She put my dick in her mouth and started sucking it; it was one of the most amazing feelings I have ever felt. I lied there, hypnotized by the feeling. She stopped sucking and pressed her ass against my face. I started by smoothly sliding my tongue against her labia and up to her clitoris. She was so wet, and I could taste her sweet vaginal juices in my mouth. Then I started licking her anus; it was so clean and perky, I couldn't help myself.

She got off my face, turned around and looked me dead in the eye, saying, "I want you to fuck me. Long and hard." She sat down on my cock, and I could see her light up with pleasure at my penis inched its way inside of her. She rode me for a good 7 minutes, moaning hard and staring me in the eye the entire time. She sat up off my cock, got on her hands and knees, and told me, "Take me from behind, better than your father ever could!" I rammed my cock into her beautiful vagina so hard she screamed. I then grabbed her vibrator and shoved it into her tight little anus. We were rocking the bed and she was screaming so loud, I pulled out and she squirted, all over me. I slithered back in and continued pumping. She was gasping and motionless, in shock from the amazing orgasm I just gave her. Not even 30 seconds after, I pulled out and stuck my dick in her mouth. I climaxed so violently it was amazing. She swallowed my entire load and looked me in the eye. We got under the sheets and turned off the lights, both panting from the rough sex we just had. She leaned over to me, kissed me on the lips, and said, "I love you," as we both went to sleep.
