It was about 11am by the time I woke up and found myself still in bed with mom. I looked over to see she was still sleeping and still in her lingerie as was I. I got out of bed carefully and as soon as I did I felt how sore my ass really was. I decided to tighten up my stance a little by putting my legs together and squeezing the muscles in my ass tight as I walked. It was a lot like my sexy walk and to be honest it gave me my morning erection as I walked to my room.

Once I got there, I took off the lingerie and set it aside to be washed with my other clothes. As I bent over to pick up my panties, I could feel my worn out hole open and all those hot and sexy memories started flooding back with Lemar behind me and making me a real woman.

Once I removed the last piece of the lingerie I searched in my drawers for something else to put on. To my disappointment, I had worn all my sexy and slutty clothing and now only had my normal boring boy clothes. I searched through all my drawers and my closet for what seemed like forever before I finally found something to wear. It was a black thong and bra, it wasn't much but I got out my black stockings and heels to go along with it. I quickly put on the clothing and started to think of what else I could put on. I finally decided on a nice black teddy that you could see through and my brunette wig. I gave a little turn and then bent over to pick up my clothing. As I did I looked at my sexy ass in the mirror and gave a little wiggle and a giggle to myself. I took all my dirty clothes to the laundry room and began washing them. I went into the living room nearby to wait for them to be finished. I soon grew bored and was still horny from when I woke up so I thought why not have a little fun while I waited.

I went to my room to get a vibrator and looked through until I found a nice big black dildo and a normal plain looking vibrator. The dildo was about 7.5 to 8 inches long with big silicone balls at the base and a hole in the bottom for what I can only assume is for multiple uses, and I had one particular one in mind.

I grabbed my bottle of lube and a condom from my night stand and headed back to the living room. I

put the vibrator in the dildo until the end with the dial for the vibration was inside the dildo as well. I got on my knees in front of the couch and placed the dildo on the couch and positioned it like there was someone sitting on the couch with their hard cock pointing right at my face. I started rubbing it and teasing the head a little so I could practice getting cocks as big as Lemars hard again.

After a few minutes I grab the condom I had brought and opened the package before putting it in my mouth. It was a flavored condom so it wasn't as bad as a normal one would have been. I then grabbed the dildo again and I pressed my lips against the head. I opened my mouth and used only my tongue and teeth to roll the condom onto the big cock as far as I could go. With all the deep throat advice and practice I had gotten from mom, I was able to get just over 7 inches of the dildo into my throat and roll the condom far enough down so that it was in place. I rolled the last bit of the condom over the rest of the dildo and over the balls so I would not have to reposition it over and over again.

Once it was on, I rubbed it all over and felt the length and width in my hands and got myself horny enough to try and take the entire thing inside me. However, just as I was about to apply the lube the washer buzzed and I had to deal with the laundry again. Frustrated, I got up and went to the laundry room and got the washer and dryer going as quick as I could so I could return to my pretend lover.

When I returned to the living room, I looked for my dildo and could not find it anywhere. I started searching for it and lifting cushions then retracing my steps but still I could not find it. I stopped to think as I sat on the couch but then I heard mom's voice from behind me.

"I see Missy wanted more and decided to get a little naughty as she was doing her chores." She said with her famous smile.

I looked at her and saw she was still wearing her lingerie from last night but when I got to her waist and crotch area I saw she was wearing a strap on, and not just any strap on it had the dildo I was just using locked in the harness and looking ready to go.

"Mmm yes mam, I need more and I still feel so horny that I just needed relief as soon as possible." I said as I got on my knees on the couch while facing her.

She walked up to the edge of the couch until she was right in front of my face. Then she grabbed my head and pushed her big dildo into my mouth.

"Then eat it you little whore, I'm going to satisfy you like no man can." She spoke in a dominating voice.

I opened my mouth and let the massive black toy slide right inside as I started to moan and savor the

flavor as my tongue swirled around the tip over and over again. I felt mom's hand guide my head back and forth like a real telling me to go deeper onto his cock.

This continued for only 5 minutes, but I still loved every second of it. Then she pulled that massive silicone cock out of my mouth and slapped it around my dripping mouth. She called me a little whore, her hungry little plastic cock sucker and told me it was time I got filled.

I stuck out my ass and pulled down my thong like a good little slut as I moaned and watched as mom strutted around to my side and applied a generous amount of lube on her strapon. Mom rubbed the tip of her strapon to my hole and considering the intense fucking I had the night before, I had no worries that it would go in with any pain and I was right. The strapon went inside me and I could feel the slipperiness of every inch enter me and fill me.

Once the dildo was completely inside me, I pressed as deep as I could against mom's body and grinded the dildo as deep and as hard as I could. The feeling of being full of cock again was great even if it wasn't a real one, but it was still better than just masturbating.

"Hold on slut, Momma is going to ruin the little boy pussy of yours." She said as she started to spank my ass hard and grind the dildo deep into me.

I moaned as I felt the lube get warmer and warmer inside me and she churned my insides before pulling out and slamming back in again as I just held on helplessly as my ass was pounded. It wasn't long before I was panting, moaning and sweating hard as slapping noises could be heard from behind me each time she thrust deep into my ass. All of a sudden I felt a sudden surge of pleasure wash over me and my body shivered then relaxed. I looked down but my cock was still rock hard and throbbing even though I had felt an orgasm. I rolled over on my back as mom pulled the dildo out.

"I see Missy just had an orgasm from her ass without shooting her sticky load at all. You are very lucky, that means you can fuck without waiting this time." She giggled as she removed the strapon. Then she turned around and bent over just enough to let me watch as she slowly pushed it deep inside her ass as much as I had taken it. When she had it in all the way, I reached over and turned on the vibrator inside to max then gave her ass a couple good slaps like she did me.

Mom turned around quick and moaned as she bit her lip as if she was telling me not to stop and to keep going. Then I quickly got down onto my knees right in front of her and started to eat her pussy. I started by kissing all the way up her inner thighs then gently blew some air onto her glistening wet lips. My mouth went straight to her clit and I started licking it and flicking my tongue on it over and over again as I squeezed her ass and massaged it like it was a couple of big chunks of bread dough. I moved down till I was against her wet juicy lips and slowly stuck my tongue out and licked all around

the outside not missing a single spot. As I continued, I could hear her moans get louder and more intense as I got deeper and deeper into her nether regions.

Now it was time for the best part. I pushed out my tongue and wiggled my way deep inside her pussy. I could feel her wet juicy lips squeeze my tongue tight as I moved it in and out then went as deep as I could as I swirled around and even rubbed her g-spot as hard and as fast as I could. It wasn't long before she started to shake then explode in squirt after squirt onto my face and down my body. The feel of her warm wet liquids oozed down my body and coated my bra and teddy in what felt like a warm shower with the most erotic scent ever.

"That was very good Missy, but I think it's time your little friend got some attention as well." She pointed down to my throbbing hard cock then pushed me onto my back and told me to lay flat on my back.

I did as I was told and laid down on my back with my cock twitching and pointing straight up in the air. She sat down on my body with my cock between her legs then she started to rub the length of my cock along her pussy lips. It felt so good I almost started moaning just from that experience alone. Then she raised her body high enough so that my cock could stand straight up once again as she lowered herself back down again, inserting the full length of my cock into her pussy.

Without saying a word, she started to ride me. She started slow by grinding her hips as my cock was buried deep inside her warm wet dripping pussy. I could feel every squeeze and twist her pussy made as it clenched my cock hard, trying to make it shoot its juices inside her. I could tell mom was starting to feel good as well because she started to moan like I was and even began to bounce her hips and ride my cock up and down. Now it was becoming very intense and gave me a feeling I had almost completely forgotten about.

I grabbed mom's hips and started thrusting up into her, she obviously loved how it felt because her jaw dropped and she grabbed her tits. I saw this as an opportunity for Missy to have some control for once, and control she got.

I sat up and pushed mom onto her back and I got up onto my knees and began to thrust into her mercilessly. Each time my balls slapped against her pussy, she squeezed me tighter and tighter and I started to call her all the slutty names she had called me in the past.

"Take it! Take it you dirty little slut! Squeeze my cock hard with your worn out whore holes that Lemar ruined for all other men last night." I demanded of her as I reached up and pinched both her nipples hard making her not only squirm, but also give her just enough of a sensation to send her over the edge and cum all over my cock.

As I felt her juices flow over my cock, I knew this was the perfect opportunity to become the pimp rather than the hoe and I think mom wanted that as well.

“Get on your knees slut, all fours now! I want to see that fucking ass in the air so I can fuck you like a dog.”

“Yes mam.” She purred.

Mom was on all fours and grinding against my cock in no time. I gave her ass 4 hard slaps on each cheek as I made her scream and beg for my cock. Then I plunged my finger in her ass and made her quiver for only a second before I shoved my cock into her pussy, surprising her and making her extremely horny. Then I grabbed the dildo we were playing with and shoved it deep into her ass and turned on the vibe. I pressed the base with the balls up against my body as I moved both my cock and the dildo in and out of her at the same time like she was being fucked by a man with 2 cocks.

It didn't take long for my need to cum to bubble up since it had been a while since I had used my cock and fucked a pussy but I didn't want to show that I was trying to keep from cumming so instead I went with it. I left the dildo in her ass and vibrating as I pulled out my cock then went around to my moms face. I stroked my cock a few times then blew my load all over her face and told her to clean me up.

Her tongue felt amazing as it slid all around my head then once up my shaft. Mom's saliva was very warm and wet that I knew if I was to just let her continue she would have been able to get me hard again in seconds, however I had much bigger plans in stored for her holes. As she licked off the last few drops from my cock head, I removed the dildo/vibrator from her ass and pulled the vibrator from out of the dildo. The cock hungry look in her eyes told me she wanted it back in as soon as possible and not being one to disappoint, I created the perfect way for a CD like me to fuck.

Since I had already removed the vibrator, I put the dildo back into its strap-on harness and slipped my semi hard cock into the space where the vibrator was. Then I lubed up the vibrator and slowly inserted it into my ass as deep as I could take it and used the harness strap that ran between my cheeks to hold it there. Now I felt like a true lesbian slut, I was wearing a strap-on with a vibrator in my ass and wearing very sexy stockings, bra and teddy with my brunette wig. I grabbed mom by the hair and led her into the kitchen.

“Let's go bitch.” I commanded.

Once we got to the kitchen I bent her over the table viciously then pulled her head back and smeared my cum that was still on her face all over and then into her mouth and made her clean them. I felt

being bent over the table was a good place to fuck her like crazy since it was in that exact same location that I was caught in the first time I had sex while dressed.

I got behind mom and rubbed my big strap-on cock up and down her pussy and her ass, then I gave it a smack and told her to beg for my cock. She looked so horny and helpless as she moaned for my cock and rubbed her big sexy ass on the tip. I could feel every movement she was making because now my cock was rock hard and fit perfectly in the dildo in terms of width.

I inserted my cock into her pussy and started to fuck her furiously as I gave her the full length and an intense fucking right from the start. I could see out of the corner of my eye that the neighbors were once again watching my little fun.

“I see we are putting on a little show. Why not scream a little louder so they can hear you to?” I said in my sexy seductive voice.

She started to scream and moan even louder and I pounded her pussy mercilessly, filling her up with my plastic dildo cock as deep as it could go. I even started to feel good as the movements on the inside of the dildo were making the same sensations as her pussy but it made me feel like I had more stamina then before and could fuck her for hours without stopping. The vibrator was doing its job as well as I could feel it buzzing deep inside my ass. With every movement I made, the vibrator moved inside me and the dildo inside moms pussy squeezed and rubbed my cock in every direction.

Suddenly I turned my head to face the neighbors watching us and licked my lips as I gave them my sensual and sexy look. They were already rubbing their crotches but once again they were embarrassed and closed the blinds but this time I knew they were going to have sex.

After half an hour, mom had came what seemed like 20 times and we were both covered in sweat. I had cum twice myself and it was leaking around my cock and drooling out the bottom of the dildo.

We went to sit on the couch and she rode me for another 10 minutes. Just as we had finished out last orgasm, mom got onto the floor and panted as I removed the strap-on and the vibrator as we shared the cum that was inside then her pussy juice from the shaft. It tasted delicious but then we looked at the clock and realized that it was already 2:30pm. We decided that our day was pretty much gone and just watch a porn video and continue as we were for the rest of the afternoon.

To be continued.
