A true story.

And also my only anal. We were (and still are friends) and there had always been some sexual tension. MSNs started to get dirty, he told me that he liked to be in charge in bed and I told him that I was absolutely the opposite and for the first time since we'd known one another, we were both single. We lived in different parts of the country. One thing led to another and I had found myself on a train and we spent the weekend fucking. Bliss. Fucking and friendship. We knew nothing more should ever come of it, neither of us wanted more. The sexual chemistry was amazing and we were comfortable in bed/sofa/floor/wherever which was something I hadn't been used to and found it hugely liberating to let the slut within out after she'd been shut up for so long, only glimpsed once in a while. His MSNs had always involved anal, and yet my ass was, apart from a couple of fingers and some tongue; unfucked. That weekend had left us spent and we left it as something good which probably wouldn't happen again. In time, the MSNs progressively grew filthy again. We swapped more fantasies. I mentioned that I'd expected my anal virginity to had been lost that weekend. He told me he'd love nothing more than to take it, but he wasn't sure I'd wanted it then and I had been too shy to ask. I found myself on a train again, this time to somewhere else. One of his fantasies had involved a hotel so we booked a plush place in the middle of the country. When I knocked on the hotel room door, I was wearing a short skirt, suede knee boots, black opaque stockings and suspenders, lacy knickers, a waspie pulled tight and a coat. He answered the door and pounced. Feverish kissing, his tongue insistent in my welcoming mouth, his breath on my neck and ears, his moan and the devilish look in his eye as he opened my coat to reveal my huge breasts and tiny pulled in restricted waist. His mouth and hand on one breast and nipple sucking and biting and then the other while his other hand pushed up between my legs to find my now soaked knickers. I could hear my own heavy breaths as my coat and bag I was still holding fell to the floor as I was pushed against the wall. His hard cock straining against his jeans, my hand fumbling for it, wanting it so badly. He spread my legs and pushed in-between them, sandwiching me to the wall, my feet were pulled off the ground and my legs wrapped around his waist feeling his cock hard against my pelvis as he lifted me over to the bed and then dropped me down on my back, legs spread and breathless. "Hello," he spluttered with a smile. "Hello," I gasped back. My boots were pulled off in one foul swoop and he was on top of me and we were kissing passionately. I pulled his top off, feeling his flesh against me. His hands were

everywhere at once and my hips were grinding into his wanting his cock in me again. One hand pulled both of mine above my head holding them there. His other hand pulled the soaked lacy excuse for my knickers to one side before making me gasp loudly as his finger pushed deep into my tight soaked cunt, fucking it a couple of times before pulling out and sucking my juices off his finger. Again, a finger plunged deep, more insistently. "Mmmmm you're so fucking wet. Taste how wet you are." His finger traced my lips as I opened up to suck my cunt juice. "Good Girl." I could feel myself purring within. Instantly his hands are on the move again, pulling my knickers off entirely, throwing them who knows where and pushing my thighs wide apart (not that I needed much encouragement) His head buried between my legs, wet mouth on wet cunt. One hand fingering between tonguing, the other now pinching at my nipples. All at once he was sucking, tongueing and biting my clit, twisting my nipples, then grabbing my ass, pushing a finger in gently but firmly, pulling me harder onto his mouth. I came hard and noisily. I was gasping to get my breath due to a hard orgasm and the tightly pulled waspie as I pulled at his jeans, desperately wanting his cock. He pulled all his remaining clothes off. My breath was returning to normal as I opened my mouth to take his cock. "Suck me."

"Mmmmmmmmm yes!" He thrust into my mouth as I sucked, I was trying not to gag, wanting to take it all without gagging and suck it hard, please him as he'd pleased me. He tasted delicious, but he didn't want to come in my mouth, not this time. I sucked him as long as he'd let me before; "Turn over, Get on all fours and spread your legs." I did as I was told of course, feeling my cunt and ass exposed, hearing the tear of a condom wrapper and before I knew it his hands were holding my hips firmly and cock was pushing hard and deep into my cunt. We both gasped loudly. He fucked me hard. Harder than he'd done before. My face pushed into the mound of pillows. SMACK! as his hand came down hard on my ass. I moaned into the pillows as his strokes got harder, both smacking my ass and plowing his cock into my cunt. "You're such a fucking slut." Mmmmm, I love to hear that! He pulled me out of the pillows by my hair and kissed me hard before fucking me so hard again. His hand snaked round to my pussy and smacked it as he fucked it making me moan. I could feel his orgasm building with the speed and ferocity of his fucking. And he came, hard and loudly pushing me hard down onto the bed with the force. Condoms are a necessary evil sometimes and I wish I had felt his cum tricking out of my cunt. Spent for the time being, we got our breath back, laughed and chatted until we both started feeling frisky again which wasn't too long. "Go and run a bath." I broke away from sucking his gorgeous cock and of course I did as I was told. We lay in the bath, me on top of him with my head against his chest feeling his cock hard between my buttocks as he soaped and pinched at my breasts and nipples and reached down to finger my clit and cunt. "I'm going to fuck your arse now, kneel up and forwards and spread those gorgeous cheeks of yours." I was nervous but did as I was told. I wanted it. He lubed his finger and pushed one into my tight virgin ass wiggling it to open me up. "OK?" "Yes," I murmured. As his finger probed deeper, I could feel his body push closer and then the head of his cock rubbing up and down my ass crack. His other hand was on my clit, rubbing. He slowly pulled the finger out of my asshole and smeared some more lube there. Then I felt the head of his cock against my ass, some pressure, pushing, some more. "Mmmmmmm I'm going to fuck your tight virgin ass. Do you want me to fuck your tight virgin ass?" "Yes. Yes I do," I gasped. My

asshole was opening for his cock, I wanted his cock there. I pushed back gently "Mmmmmmmmm." A moan from him as the head of his cock pushed inside me. A small yelp from me. "Hurting?" he asked as he stopped. "Yes." He pulled his cock out. "Let me have you on the bed so it's not so tricky." We got out of the bath and dumped all the towels on the bed. "On all fours and hold your ass cheeks open so I can see your delicious asshole. Bad angle just before. I AM going to fuck your ass though." He lubed my ass and his finger pushing it into my asshole. I liked the feeling. One finger was deeper in my ass. Another was introduced. Slippery lubed fingers in my ass and it felt good. "Ready?" "Yes." Again, I felt the head of his cock pushing at my asshole. I really wanted it in there. He pushed gently. My ass opened for him and I pushed back. It felt strange, a little uncomfortable. He pushed more insistently, but still gently. I could hear him breathing harder. His cock was pushing deeper into my ass and it was opening to let him fuck me. "Rub your clit for me, you'll relax more so your ass can be fucked." I didn't need to be told twice. The feeling of my clit being rubbed and his cock pushing deeper into my ass was goooood. His cock was completely inside me, I could feel his balls against my ass and his hot breath on my ear. "So. Fucking. Tight," he gasped as he slowly started to fuck me gently and slowly. My hand on my clit and then fingering my cunt, feeling his cock in my ass through the wall of my cunt. I was soaked. I started to push back against his cock. Mmmmmmmmmmm, it felt so fucking good. I didn't realise how hard he was fucking my ass, it just ALL felt good. "You like being fucked in the ass don't you you little slut?" he breathed. "Yes, yes I do!" Harder. Cock in my ass and fingers in my cunt, his balls slapped with each stroke. "Are you going to cum with my cock in your ass?" he whispered. I think my gasps told him what he wanted to hear as my fingers fucked my cunt his cock exploded hard in my ass pushing me firmly against the mattress. He said it was an honour to be the first to fuck my ass. We fucked for the rest of the night and into the morning and then went our separate ways, broken and spent in a good way. We're still friends but haven't fucked since.
