What the wife doesn't know about

If you ever met me, even after you got to know me well, you would never believe for a moment that I would be involved in the story I'm about to tell let alone would you believe for a moment that I was not one of the dominate males but the lone bottom in a room with four tops. Its not that I'm some kind of macho guy, but I was an athlete through college, considered good looking and never have had a problem with women to this day. Now I'm happily married and though considered "liberal" by many, I can't think of anyone who might think I was gay—I'm not, I'm bi--let alone a submissive pleasure slave to a dominate top who enjoys sharing me with his friends. But I am and it's a secret part of my life that I lived for years, enjoy thoroughly and can't imagine not having. With that said, let me tell you about being the little m with a group of big M's. After my three-way with my current boyfriend and my past lover, I knew I was ready for more and so did my boyfriend, Hank. I knew Hank loved to share me with another man and frankly we both understood that one man was not enough to satiate my desires and after that day, we both agreed that I might need more than two. I trust my boyfriend and he assured me that any of our fulfilled fantasies would be completely discreet with only other married guys like ourselves. Hank had several friends that did not want to explore the "gay" lifestyle but wanted to find a few buddies to safely share their secret thrills and then return home to their families and normalcy, satisfied with an itch scratched well. I never knew what to expect when I showed up at Hank's house for our weekly meetings. Most of the time it was just he and his fat 8-inch uncut cock ready to service me, but then one day I saw an unfamiliar car in the driveway and once inside recognized my past lover (a mutual friend) who happened to be in town for a few days. A day that I will remember fondly for a long time and one that left my ass gaping for days. It's so funny, I'm not really into guys at all, but I do really enjoy cocks and have grown accustomed to men and all contact as a result. It all started with a desire to suck a cock and that grew over time to desperately want to feel a cock inside my ass. At first I thought a woman with a cock would be perfect, but then over time I realized that only men have the same kinky ideas and the ability to go through with them and slowly but surely my resistance to being with a man in all ways broke down and I now relish all the pleasure a man can bring me. Yesterday I drove over to Hank's place and almost drove away, but then pulled into the driveway anyway. Two other cars were there besides Hank's. Oh god, could I handle being with three guys? I almost fled again when I started to get out of my car, but then I figured that if I

didn't want to do anything, I didn't have to. Unless they had a gun, I never feared for my life because fifteen years of karate training gave me the confidence to enter and at least check things out. I knocked and Hank greeted me with a kiss and a smile then told me he had a surprise for me inside. I stepped into the living room trailing Hank and I found three other guys—not two—sitting in the living room. Hank said, “guys, this is my girlfriend and she's going to be your slut for the whole day!” I loved being treated this way, not degrading, but as an object of desire for other men. I wasn't introduced to the guys individually, in fact for the most part unless I heard the guys call each other by name, I didn't know any of them nor their names as was intended. Three strangers (at least on that day) that my boyfriend wants me to fuck and after realizing that none were unappetizing, I too wanted to fuck all of them and soon! Hank wanted to watch as the other three had their way with me, so he just sat down in a chair and told the guys that I would do anything they wanted and to just help themselves. Mitch the biggest guy of the three got up and came over and gave me a kiss, then started to feel my body. I just stood there as this 6ft2in man ran his hands over my body and then stood behind me and said to the other guys, “So what do you think guys, should we fuck this bitch or make her beg for us to fuck her.” “I say we make her beg, she looks like she wants a cock in her right now.” Said Bill, one of the guys seated, who ended up having the biggest cock of the group—cut, solid 8in but even thicker than Hank's. “Yeah, lets make him beg for it, that ok with you Hank?” Chimed in Stan the third guy who had the smallest dick--a solid cut six-incher—but very nicely shaped with a big mushroom head. “Do what you want, but I hope you all came with a lot of cum in you, because I promise that she'll not only beg for it now, but hours from now after you've all cum a few times.” Hank challenged. “We'll see about that.” Mitch replied and continued running his hands over my body and then finally he unbuttoned my pants and dropped them around my ankles leaving me standing there in just my panties and top. “Mmmm, nice looking pussy you have there Hank.” Bill said to Hank “Turn him around” Hank said to Mitch and Mitch turned me around showing my ass off to the guys seated. Both guys made positive comments about my ass while Mitch ran his hands over my cheeks, kneading me and showing my globes off to the guys. Mitch turned me around again and pulled my top up over my head and then dropped my panties to the floor and then his mouth found my nipples. Just then, I felt another pair of hands rub my ass and then part the cheeks and a hot wet tongue plunged in immediately between and right to my tight rose bud. I let out a moan and one of the guys made a comment about how hot this bitch was. The next thing I knew, I was being pushed onto my knees and realized that all three guys were standing around me and had their cocks out and in their hands. I immediately took the closest one into my mouth and grabbed the other two with my hands and slowly stroked all three. I love sucking cock so much and to have three right there, to take turns sucking and stroking was enough to make my day a complete success, but knowing that those three glorious cocks would also be filling my ass perhaps several times made me suck and stroke each one with increasing fervor as my lust began to grow. I wanted to suck all three cocks dry, feel them cum in my hands and mouth. To bring pleasure to these three men and show them what a hot little bitch I was and how much I wanted them to use me. I guess I was giving these guys something they never had before, a blow job where the goal was to not only bring pleasure, but to drain their balls of ever last

drop of cum was a mission and Bill couldn't handle anymore and I felt his cock swell even thicker in my throat and then jerk and spasm while shot after shot of his warm sticky fluid filled my mouth. I love to make a guy cum and knowing that Bill's big cock was spent for now excited me knowing that later when he got hard again, he would be able to fuck my ass with better stamina. Too many times, because I get into fucking so much that a guy will not be able to last all that long as a result from my tightness and enthusiasm. What I really love is a long fucking and I've discovered that I really enjoy getting fucked by one guy and then immediately having another guy enter me. So far nobody had done any fucking and one guy was already back on the couch watching me stroke and suck off two guys at once. Both Stan and Mitch must have been getting close to cumming too, because they both decided to back away and told me to the bedroom and lay down on the bed. They had me lay on my side and both guys got onto the bed, Mitch licked my ass and Stan started sucking my cock. Bill moved up to my head and offered me his cock so suck—I was so pleased after just a few minutes his thick cock sprang back to life—and Hank took a seat by the bed and just watched. I love having my ass licked and Mitch was a pro. A lot of kisses in between honest to goodness sucking, and tongue fucking. Meanwhile, Stan was sucking my cock and I worried that I too might cum soon, so I just concentrated on Bill's cock, while looking deep into Hank's eyes' as he watched me. I guess the guys knew I was getting close to cumming, so they stopped for a moment and we re-positioned with Mitch on his back and me kneeling over him in a 69. We started sucking each other and then I felt a tongue, then fingers on my ass from behind. I couldn't see who it was and looked to see both Bill and Stan behind me. Bill was applying lubed to Stan's cock—they kissed—and then to my ass. I was glad that Stan was going to fuck me first and I dropped Mitch's cock from my mouth and begged Stan to fuck me. The guys liked hearing this and started to talk dirty to me, asking me to beg and telling me what a hot slutty fuck I was. I loved it all and soon I got what I wished. Stan eased his cock into me and I wiggled my ass back at him and he slid right in. No pain, no unpleasantness. That's why I love to be rimmed, it makes your ass feel great and want to be fucked! Stan slowly slid his cock in and out of me until I was fully at ease and then gripped him and started to fuck back. I continued to suck Bill's fat cock, making sure he didn't cum again and feeling his mouth on my cock as it slid in and out while Stan's cock did the same was finally too much for me and I shot a huge load right into Bill's mouth. Bill eagerly swallowed ever last drop and then just kept sucking me. I never got soft and I just kept fucking Stan's handsome cock. Stan finally couldn't hold back any longer and asked me where I wanted his load. I told him in my mouth as long as Mitch would fill my ass with his cock. Stan pulled out, walked around and I took his cock fresh from my ass and took it deep into my throat and let him just fuck my mouth. Stan was hot and it only took about twenty strokes and soon he was gushing and filling my mouth with his sperm. I almost choked the load was so big, but then the feeling of Mitch's cock now deep in my ass took my mind off of Stan and soon I was thrusting back and Mitch's thick 7-incher. Mitch did not last long at all and just as I was starting to really enjoy feeling him inside of me, he pulled out and shot his load all over my back and ass. I loved the feeling of cum being shot on me and reached around and rubbed his cum into my skin with my hand. I sat up and my cock slipped from Bill's mouth and his tongue went to work on my gaping ass. Bill's lips and tongue felt so soothing

and nothing has ever felt better in my life! I told Bill that I wanted to feel him inside me now and he told me to climb onto his monster and go for a ride. I turned around and slowly worked his big fat cock into my ass. Despite already being fucked and well lubed, Bill was big and I had to adjust and accommodate his size. After a few minutes I slid him all the way and I sat on him feeling his hairy balls against my ass. Bill filled me so well and he felt so good. I leaned forward and he pulled me tight against him and we fell into a very passionate kiss. Bill slowly started to work his hips and I felt his monster start to move within me. God, he was getting even bigger! After awhile, I really start to get into feeling him inside me and I pushed back up onto my hands and slowly ground my ass onto Bill's cock. Bill met my grinds with slow thrusts and finally I really got lost in the moment and sat upright, playing with my nipples with one hand and stroking my clit with the other. I really started to fuck Bill now, lifting almost all the way off of him to his head, then sliding my ass back down hard onto his cock and balls. My pace increased and Bill matched every move and soon was playing with my titties and I just leaned back on my arms against his legs and fucked him silly. Then the most amazing thing happened. Without anybody touching my dick, just from the intense feeling of Bill deep inside me and playing with my nipples, I felt a deep warm sensation that was very familiar, but not expected and then all of a sudden, my cock started spurting cum. I was having an orgasm just from being fucked! The guys watching all cheered and made comments and I just kept bouncing on Bill as my cock kept erupting and then Bill made some grunts and his cocked swelled even larger and then it happened, I felt his balls literally empty and gush into me, spraying the walls of my ass with his hot seed. With both our last spasms, I collapsed back onto Bill's chest and then rolled off and fell onto the bed like a rag doll. I was spent and couldn't believe what an incredible experience I just had. Bill got up and went to the bathroom and then Hank suggested that they leave me there to re-coup and clean up for later while they had a few more drinks and decided what next to do with me.
