fingers leaving rough electric trails across my lips and skin my head shakes no you whisper yes
holding me enthralled in the space of a breath between our mouths gripping the back of my neck
freezing me in place your lips and tongue and teeth hold me down rising up against your immovable
density crushing without even a single touch my center contracts explodes a whisper a scream
please oh my god just snare my lips and skin devour this hungry breath drowning kiss and just gone
in the space of a breath between us
