Good night my sweet love, Good night Rest And let your worries go Close your eyes, ever will I watch over you Good night my sweet love, Good night Dream And let your heart wonder free Always will I protect you Good night my sweet love, Good night Drift And I will dance through the mists of your mind I will move through space I will sway and twirl My arms reaching for you always As the sweet music of your soul Causes my heart to leap in rhythm Good night my sweet love, Good night Lay down And rest your weary mind Let your heart sleep peacefully in my soft embrace Protected and warm, guarded and safe Always Good night my sweet love, Good night Rest now and let my whispered kisses Greet you ever anon...
