Saturate me in your resonance and Render me speechless. Fill me with longing and Render me motionless. Take away my ability to sigh and Render me breathless. Capture my heart and Render me helpless. Do all this and let the flood tide roll The dam burst open The emotion like a tidal wave Pouring out to drown me in its intensity At the intensity you possess Dropping me into that dark, still night The connection alive and strong The hesitant pause, the breath Just breathe... in your presence Where I hide my face behind my hands And you steal the blush from my skin Where I bury my head into my elbow And you coax the smile from my lips An age apart ... a world A tiny worry of another life The small doubt that tweaks at the mind A dark twitch inside as The universe Giving a double edged gift The guilt shard ... sharp and piercing Like cupid's arrow Bringing us together Only to keep us apart A Fate so cruel As our souls ache And dream of moonlit cliffs Redolent with unfolding petals Of fragrant lust And dancing eyes Of ghostly visits In the dead of night To catch my fleeing form And caress the line Of my clenching jaw Then you, only you...always you, Forever you, can Render me senseless And hopelessly In love...
