I long for your body To be on top of mine The soft touch of your hand Sendingchills over my spine I
long for your body The taste of your sweet lips Kissing me everywhere While you push down my hips
I long for your body Your sweat dripping on my chest Moaning softly in your ear 'Damn baby you're
the best' I long for your body To wrap my long legs around Holding you closely As in and out of my
pussy you pound I long for your body Penetrating inside of me Thesensation of your hot cum
Covering me entirely I long for your body There's nothing else I'd rather do Than to make love to you
all day and Telling you that I love you.
