It's early and still dark outside I wake from yet another restless sleep Tossing and turning Thoughts of you racing through my head Aching And in need of a release I close my eyes again And let the feeling wash over me I can't help myself Moisture has already made its home at the entrance of my pussy I slip my fingers between my thighs Into my wet and throbbing pussy God, I wish you could feel this... As usual, one finger, even two fingers just isn't enough With my other hand, I pinch my nipples Hard...so very hard Always amazed at how a little pain can give so much pleasure It doesn't take long I swallow my moans, My screams But it doesn't matter My body rocks with the force of my orgasm I remove my fingers from my quivering pussy And bring them to my lips Licking each finger one by one Mmmm...delicious My body relaxes My mind slows down And I'm ready to take on the day I hope your morning is as good as mine!
