My fingers touch your hair As you kneel down In front of me Obedient, tamed, fragile Like a lamb
Waiting for me For inspection For discipline I wonder tomorrow If people in your office Will notice The
bruise on your wrist Left by the rope Your swollen lips Caused by my Sucking, biting, thrusting And
your hoarse voice From all the Moaning, screaming, whimpering Tonight Am I too harsh? Is this too
much for you? I ask myself often But each time When you look at me I read in your eyes The urge,
the lust, the begging Not to stop But only ask for More You need To be used You want To be
ravished You crave To be abused You deserve To love and be loved In the way you prefer So, both
of us Expose Our secrets To each other Reveal The raw desire Deeply hidden Inside us Release The
yearning of Control and being controlled Discipline and being disciplined Owning and belonging So,
right now As I pull up your hair Squeeze your body Feel your quiver Of pain And ecstasy I whisper to
your ears Beg me To unleash you To be more rough To make you Mine Say it out loud Or I will stop
Please Beg me Now
