Well, I've been waiting so long. For someone just like you to come along. I've been through so much wrong, trying futilely to remain so strong. I've been through so much wrong, waiting for someone like you to come along. As the Darkness, it comes over me Swept away, where No-one can see Dwelt in here, for I cannot breathe So I strived, so hard to get out As the Darkness, it entangles me Swept away, where No-one else can be Dwelt in here, where I cannot live So I fought, so hard to get free As the Darkness of my own soul, pushed into my flesh like steel Dwelt inside, for I cannot leave So I retaliated, to start anew. Where should I take this agony? Just wanted to bury this anguish, deep into years of forgotten ash. Where should I take this despair? Just wanted to bury this humiliation, deep under thousands of pills. As the Darkness, it comes over me You swept it away, to never bother me. Aside of you, I feel free. Aside of you, I can be Me.
