When I cry, it is your, ... nature that gives me hope. When I laugh, it is your, ... smile that gives me joy. When I think, it is your, ... being that gives me thought. When I breath, it is your, ... essence that replaces air. When you drink, ... it is my spirit that quenches your thirst. When you see, ... it is my beauty that gives you sight. When you listen, ... it is my voice that is the only sound. When you touch, ... it is my soul that touches back. When we love, we are simply ... Us.
