Chloe..chloe I see you standing there In my booth you stripping bare You turn around your pubic hair
I cannot fail but just blush and stare Your sensual movements in front of me You touch your toes your
clit to see You waggle your bum I think I might Fuck your pussy it looks so tight My arms around you
for the night I'll squeeze your breasts and twist your nipple Take another gulp of my favorite tippie I let
me hands slide down below I slide my hands down to your toe Up your leg past calf and thigh My
trousers bulging..cock to the sky I find your pussy my fingers in I hear you moan.push them deeper in
I twist and turn I finger fuck Your move around begin to buck Your release my cock, lick and suck
Your times up now..on what the fuck!
