When I saw my brother's big cock, I wanted him to meet all my college girlfriends,

Chapter 1 I guess this story starts the day I was born, September seventeenth, nineteen ninety-one. So, yes, that makes me twenty years old. My name is Michelle Newcomb and I'm in my second year of college, majoring in Business, after all, I do hope to do something beyond waitressing after I graduate. So, I'm really beefing it up with extra accounting and finance credits along with some marketing courses as well. There's me, Mom and Dad, and my little brother, Ryan, who is a senior in my old high school. Since this story involves Ryan and me both, here's what we look like. I'm five-six, slender with a nice figure (okay, guys, they're B-cup but they're full, really full and really firm and nice with small, pink nipples. Yes, really nice.) and I weigh one-eleven. Honey-blond hair (not my true color) to just below the shoulders, often in a ponytail, light-ivory skin (that's for the girls, guys just want boob info, right?) and I was one of the few lucky ones who never had any complexion problems growing up. So, that's it for me. Oh, um, I shave it smooth and it really looks fresh and pretty. Now, Ryan is six-one and a half. He's fairly muscular but really doesn't workout and really never played sports. But, he's like our dad, he's nice with his shirt off. His hair is light brown (yes, my natural color, if you must know) and he has a winning smile. Okay, I really couldn't say what he looked like with his pants off. At least not since he was seven or eight. No big deal, literally. Actually, there was a time, fairly recently when I saw him with his pants off. He didn't know I saw him, I had come home from college for a weekend and he was out back, on a blanket, sunning himself. I was just about to call out to him when I saw he was naked. Well, you'll have to trust me on this but Ryan was beautiful. Now, he's a nice looking guy, actually pretty handsome. But, well, his cock was huge, the largest I'd ever seen. And, are you ready? It was soft. It was flopped back on his abdomen soft as can be. He turned and it just dangled down and hung there as he reached for the sun tan lotion. I'd try to make an estimate of how long it drooped down but I really wasn't that near. Must be, over seven, no, maybe even eight inches and thick, a heavy sausage. I looked for a minute, after all, I am a female and he's got a huge one between his legs, so he takes some lotion, drops over on his back and wraps his hand around it and begins masturbating in the warm, afternoon sun. Now, of course, I was frozen where I was standing. He had no idea I was home and I was mesmerized watching his cock grow in

his hand as he stroked himself. If you want to know if I had a hand in my panties while I watched, no, I had them both crammed in as I crouched down some to get as many fingers in as possible. I stayed there until long arcs of cum came flying up from his cock which, oh, was easily the largest ejaculation I'd ever seen, by some margin. I went back out to the car and drove a few blocks away to a little spot where I used to park with boyfriends in high school and got in the passenger seat with my panties off and feet up on the dashboard and really did a good one. This time, coming back home, I made sure I made plenty of noise, even honking as I pulled in the driveway. By the time I got my overnight bag out of the car and into the house, my brother was inside in his swim trunks and gave me a hug. All I could think about was that huge cock just within such easy reach. I went up to put my things away and got off a second time. Since then, I've never really been without the mental image of my naked brother, laying on his side with his huge, pendulous cock touching the blanket or the fountains of cum shooting skyward and raining back down as he pleased himself. I went back to school and then heard from Mom and Dad that my brother was accepted to the university I was attending and that they wanted him to come for a weekend to look it over and for me to show him around. He's planning on an Engineering major, so it made sense to try to see how that department fared. So, I set up for him to crash with a guy friend and told them that everything was set. I also told some of my friends, two of them to be exact, Laura and Sarah, and slipped in about the peek I had at my little brother's big cock. "Omigod, girl, he's how big?" Sarah asked in amazement. I held my hands about a foot apart and she added, "You've got to be kidding." "No, I saw it soft, too, and it was like this," holding my hands about eight or so inches apart. "Why should he go to college, he could be a male dancer with one that big," Laura said laughing. "You may have something there, Laura, he could do pretty good I bet." "Hey, Michelle, how about having him do a private show for some of us, some of your friends?" Sarah asked me. "Wouldn't that be something?" I kidded. "Why not? Think he'd do it? How old is he?" Laura asked. "Eighteen, old enough but, geez, guys, he's my little brother." "Not so little. I wanna see it," Sarah said. "What if you got a bunch of us together and told him you'd seen him and you wanted to have him dance for us? I'll bet we could make it worth his while. I know I would," Laura giggled. I did have the image of my brother, handsome and buff as he is, swinging his big cock around in a circle as he swirled his hips for all my girlfriends. Oh, I could just imagine how he might be rewarded for his efforts. "Come on, we could all get together on the Saturday night he's here, you can tell him you saw his equipment and that we all wanna see. And, well, maybe more. How could he object, right?" Sarah urged. "Yeah, I guarantee we'd all make him a happy boy for it," Laura added. "How could he not love that?" Good question. I was sure my brother was sexually active. He's a cute guy and, well, now I've seen one of his hidden assets and, well, frankly, he's got a cock to die for. I told them I'd have a hen party for them and try to talk my brother into being the entertainment, a big cock for all those hens. They both agreed to try their own persuasiveness if mine wasn't enough. So, it was set. Several of my friends lived together in a rented a house so that was where the party was to take place. Little did Ryan know what awaited him on Saturday. There were ten of my friends we invited to the party. Laura, a journalism major, was tall and willowy like a fashion model with small, pointed breasts that she never kept under a bra. Her nipples were always on display and she was an ash

blond with green eyes. Sarah, a bright redhead, was short, almost tiny, right at five feet. Freckled from head to toe, she was curvy and had boobs that were her greatest asset, they were at the upper range of C-cup. She knew they stood out on her petite body and always dressed to show them to best advantage. Kim was majoring in Finance. She was Australian and was very tanned, a blond with blond eyebrows, she was tall and statuesque, quite stunning, a sure bet for a Playboy model shoot. Deborah, a Biology major, was, well, let's be honest. She was a sex-fiend. I know that she loved multiple guys, girls, whatever. She'd told me of sex sessions she had that were incredible. And she has quite a few in video form that she loved showing. Quite a girl. Any way, she's about five-four, perky blond, full of fun, with luscious round globes of breasts that she loves to show whenever and wherever she can. She loves to come on to whoever she's with, male or female. Jessica is a Music major but is really kind of crazy. She plays the violin and, I've heard her, she's really good. A brunette, she's about five-five or so, with curly hair and a smile that's always there. She's happy and funny and nice to be around. I'm pretty sure she's bisexual because she and Deb have pretty openly been together, it's no secret though they both have sex with guys as well. Shirley is a Texas girl with the slow drawl of the Southwest. She's not quite six feet and is beautifully-proportioned. Hardly small, she is really put-together, just think 'Dallas Cowboy Cheerleader' and you've got her. Cynthia is Canadian, from near Montreal and a very sexy girl, very French. She was dark-haired down to her waist with a waif-like figure. Her boobs are just A-cup but I've seen Cynthia naked (I may tell that story sometime, it will surprise you) but, naked, she is very sexy-looking. Not in a porn-star way but she's very hot, indeed. Angela is a girl I went to high school with so she might remember my brother, though she's due to see a new side of him on Saturday. Angela's also majoring in Business and she's blond, very curly blond and while she looks a bit ditzy, she's an Honors student and very pretty. Melissa is an Art major, I think, Renaissance Art but I'm not sure. An ash blond, she's also slender and pretty, could easily be a fashion model if she was taller. She's five-one. And, finally, we come to Brenda. Brenda is from New York. Now, New Yorkers can sometimes be thought of as sometimes abrupt and edgy, Brenda is just the opposite: warm, friendly, affectionate. She's a Marketing major and has medium-length dark black hair and a curvy figure. I know she's popular with the guys and usually has several she's dating. So, that's the group I've invited. I just hope I don't cause my brother to expire of sexual overdosing. Well, he'd go happy, any way. Chapter 2 He did get in on Friday afternoon, late, and I got him settled with a friend who I'd tipped-off that he might not be there to sleep on Saturday night, then we walked around the campus where I showed him the various buildings, including the Engineering Center and the Computer Science building, which he was interested in. We had a quick bite at a local deli and walked back to the campus, ending up back at my room to have a few beers before he went back to where he was staying. I would have taken him to a local watering hole but he was eighteen and sure to be carded. Then, the next morning, we met for breakfast and some more sightseeing, this time inside the Engineering Center where he could talk with some of the students and a few grad students and teaching assistants. For, me, all I was thinking was what tonight might bring, it had my pussy drenched. I had to go in the girl's room, yes there was one in the Engineering building, and fold up some toilet tissue to keep me from spotting my clothes. We went to a little Italian place for supper

and I'd already told him that we were getting together with some of my friends but he didn't know any of them. So, I told him he'd be outnumbered eleven to one and he laughed, "Hope this doesn't get out of hand, a guy might not live through a night like that." I let him laugh and we went on eating. We did have a carafe of Chianti, it was a place that I knew we could get served, and I let him have more than his fair share, hoping to soften his resistance but not his cock. Then, we drove over to my friends' house and I just went in, I knew it was unlocked and there they were, all ten girls dressed for a Saturday night party, they were a sexy-looking bunch. Of course, they were all babbling as one would expect when I said, "Okay, ladies, I want you to meet my little brother, Ryan," and they all yelled back, "Hi, Ryan." "Let me tell you something I just found out about my little brother not long ago. I came home for a weekend and saw Ryan out back sunning himself...naked." As expected they all giggled and tittered and Ryan looked over at me wide-eyed. "Yeah, there he was, buck-naked, with the biggest cock I've ever seen. I just stood there amazed." "Omigod, Michelle, you didn't," he gasped. "I did. And I stood there while you jacked it off, it was huge," and with that, the girls all began hooting things like, 'let us see,' 'pull it out,' 'we love 'em big,' you get the picture, they were a hot bunch. "So, I was hoping that we could convince my little brother to show us his big one and maybe put on a little show for us?" The whole room, of course, erupted and Cynthia was the first one to reach up under her skirt, pull off her panties and throw them at my brother. Then panties started flying at him until mine were the only ones left. I reached under and slid them off, then pushed them in his face as the girls all hooted and howled. He looked at me and shrugged his shoulders as I told him, "They've made it clear to me that you won't regret putting on a show for them. There's ten of them." "What about you?" he asked. "Well, I'm the only one who's seen it already," and everyone laughed including Ryan. "Well, Ryan?" I asked, adding, "What happens here tonight, stays here." "Is there any music?" he asked and the cheering went up as Laura got up and turned on the music she'd already set to go. Well, my brother started swirling his hips around, rubbing his palm over the rather generous bulge in his jeans as the girls settled in for a show. Many of them were sitting on a long sofa or on the floor and had their legs opened giving my brother a show of their own. The girls were urging him on as he began slowly unbuttoning his shirt then held it behind him as he gyrated around while several girls reached out to the swelling in his pants. Angela licked her fingertips then reached up and twisted them around his left nipple and when Deb saw that, she did the other. He swung his shirt around and around while he thrust his hips out and back in a fucking motion, my brother was pretty good...who knew? Ryan was bare-chested now, I've told you he's nice, not an athletic guy but he does have some muscles and we all were waiting for his man-muscle to appear anyway. Then he started undoing his belt, finally pulling it off and using it for smacking several of the girls on their offered butts. Next the jean's button opened and he moved up to me, gyrating to the music, as several girls said, "Michelle, pull his zipper down, girl," and I reached up and slid the zipper down and opened his waistband as he danced on. If you think the room was quiet, well, think again. These girls were raucous and hot watching my brother and I've got to admit that I was pretty turned-on thinking about that big cock of his soon coming out of hiding. He was gyrating his hips to the music with his jeans open in the front, you could see some of his black Calvin Klein briefs; later I learned he was given a

dozen of them when the mother of one of his girlfriend's had asked him to see his equipment after her daughter told her of my brother's prowess. When he told me about it, I asked him if anything happened with her mother and he just gave me his devilish grin and left it at that. "Get it out, we wanna see it," called out Angela followed by Deb with, "I'll suck it, just get it out." Seems like my friends were liking the party so far, even heating up more than I'd expected. These were some horny girls. Sarah reached out and rubbed her palm over my brother's bulge, then took hold of his jeans and tugged them. They lowered a bit more so that the swelling now showed openly in his briefs as Brenda stretched out her hand to cup around it as he danced and gyrated for us. "Omigod, it's huge," Brenda shrieked causing the others to start trying to feel my brother's cock. He kept moving to keep their hands away but they got in some pretty good feels, I even got in one myself which flashed me back to seeing it erect in his hand as it ejaculated up into the air. Now several girls moved to grab and pull his jeans down and to hold each leg as he pulled his legs out one at a time. In his briefs, I have to say, my brother was a beautiful young man. Brother or not, I was drenched. I, like all the girls, was pantiless and we all were rubbing or fingering as he danced. After all, this was a private showing, not a public place, we could do pretty much as we all pleased. The music had slowed down a bit, he had been dancing fairly fast and had a slight sheen of sweat that made him look so virile and sexy. The bulge, let me tell you, was large, very large, like the size of my double fist with my fingers laced together. Oh, I wanted to see it again. I was so ready. He was now slowly moving his hips back and forth in a fucking motion as he rubbed his hand over his bulge then took it away to approach each girl and let her rub. I couldn't believe my brother, this guy could easily be a male erotic dancer, and I mean, erotic to the max. After everyone got a good feel, yes, including his sister, he stepped back, slid his hand under the waistband and eased his cock head up out of the top of his briefs and went on dancing with it sticking up out for us to see. He also moved close to each girl so they could touch it, or, as began happening right away, kissing or licking the plump, pink, round head as it was presented creating lots of giggles and titters and oohs and aaahs among the group. I don't think I'd ever seen anything quite so arousing as my brother, moving his hips around to the music with the top two inches of his cock peeking up out of his briefs. I, like most of us, was watching him with a finger inside. Then, Deb reached out and pulled his briefs down, letting his cock flop down pointing at us. The shrieks and hoots were loud and plenty. "Look, omigod, it's huge," shouted Kim as Cynthia voiced what we were all thinking, I'm sure, with, "Man, think about that in your pussy." Now the girls were all taking hold of my brother's big cock and squeezing it, fondling it, kissing it, licking it, jacking it, it had hands all over it. Then he began moving in front of each one of us, giving each girl a minute or so with his huge member so she could do with it as she wished. Most were kissing and sucking it and it was a real mouthful. No one could get more than half of it in their mouth no matter how they tried. He twirled his hips around while several girls were sucking it, including me, making me laugh and having it drop from my mouth. I quickly took it back in and sucked some more as the girls went wild. Angela was the first to get naked but she was followed quickly by all the rest, including Ryan's sister, I was certainly not immune to the thick atmosphere of horny lust that my brother had created. Ryan grabbed a chair and sat down, leaning back, his cock flopped against his abdomen as he pulled Shirley to him, turning

her around to face him, sitting her on his lap with his cock laid back. She didn't need any prompting to begin sliding her wet pussy lips up and down along the length of his long, fat cock. "Omigod, mmm, oh, that feels so good, mmm, man, you are big," she moaned moving back and forth. Her face was getting red and he began panting and she scooted on his cock faster and faster. "Oh, I'm getting off, omigod, AYYE, AYYE, UH, mmm, mmm, oh, mmm," she cried out as Angela said, "I want to try that next," so Shirley got up and Angela wheeled onto his lap to begin sliding back and forth on the under ridge of Ryan's cock. He began fondle her breasts as she slipped back and forth, pressing herself against him as she rode along over his cock. As soon as she got herself off riding on the underside of my brother's cock, I stood up, threw a leg over his and sat there myself. When I began scooting back and forth, all my friends watched my brother's hands greedily cup my breasts. Well, I was so horny, so sexed-up, I really didn't care. It felt good and his cock was making me so wet I was crazy. I was seeing and, even better, feeling how rubbing your pussy back and forth across my brother's big cock could get you off, I was getting closer and closer. Of course, the fact that my little brother was playing with my boobs while I rode across his cock no doubt helped. Most of the girls were watching as they pleased themselves and I was soon engulfed in an orgasm of my own which was one of the strongest and best I'd ever had. And I wasn't even penetrated. Wow. Melissa got up on him next and began riding him back and forth. After a minute or so, she whispered something in Ryan's ear, then bent down forward, then raised back up again. Then she dug in her heels and began pushing down as we all realized she was slowly taking his cock inside. "Mel, what are you doing, girl? Looks like you're fucking Michelle's brother," Brenda asked as Melissa grinned, then raised up some so we could see that she now had some of my brother in her. She kept wiggling and squirming as she pushed down on him and several girls moved to the side so they could watch their progress. She had her arms around my brother's neck as they began fucking in earnest. It was amazing to see his big cock sliding in and out of Melissa. "Mmm, oh, you are so tight," my brother groaned. "God, Ryan, anybody would be tight with your big cock in them," Shirley joked causing laughter all around. I was at the side looking at his cock move into her and she was taking about, maybe, two-thirds of it, it just didn't seem to me going in any further. Then she began swirling her butt around as he fucked her and now they were both moaning as she circled while he held her butt stroking back and forth, his cock gleaming in the light as she pulled up each time. "Oh, oh, mmm, god, you're so big, mmm, so good, oh, this is gonna be fantastic," she moaned and I could see that Ryan was getting close, he was panting as she was pushing in and pulling back. Then, Melissa started screaming, "OMIGOD, OMIGOD, I'M CUMMING, I'M CUMMING, OH, FUCK ME, FUCK ME," and he was now off his chair going at her hot and heavy as he began, "Oh, yeah, ooh, mmm, UUH, UUH, UNHH, UNHH, uuh, uuh, mmm," and there began to be cum squeezed out very time he pushed in, now drizzling down her legs. "Oh, wow, that was the best fuck I've ever had. Man, Ryan, what a cock. I'm taking you to my dorm room with me," she panted. She still had him inside her when Angela said, "Oh, I want him, too, come on, move, Melissa, I want him next," and Ryan pulled out of her and she moved away as Angie got up in the same position as Ryan began rubbing his cock in her wetness and began pushing. Being at the side, I could watch the progress he made in entering her and soon, like earlier, he was

about two-thirds the way inside her, maybe he couldn't get it all inside most normal girls, I didn't know. But she was sure moaning as he fucked her for us. "Oh, so big, omigod, I'm full, fuller than I've ever been. How big is that thing, Ryan?" "Just short of ten inches according to a group of girls at my school." "A group of girls? Oh, tell us about this, little brother," I barked at him. "Well, I'd had sex with one of them and she had me over to her house one afternoon and there were two others there. They all wanted to measure me. They took turns seeing who could make me longest." "And how did they do that, little brother?" I asked. "Taking turns sucking me, of course. They got a good measurement of nine and seven-eighths inches and then just kept sucking me the rest of the afternoon. But this is way better," he laughed. It was incredible to watch my brother's huge cock sliding wetly in and out of Angela's dripping pussy. She had a hand down rubbing herself and also feeling his cock moving in and out as she began to moan, "Oh, oh, so big, it's so huge, I'm...I'm...OH, UUH, UUH, UMM, UMM, mmm, umm," she cried out as her body shook in orgasm as Ryan pushed hard into her and held her down on him as she shivered and shook. Then he fucked her a minute more before he asked, "Any one else?" "Yeah, maybe me?" Chapter 3 His head swiveled and looked at me. I'd said it. I'd asked if my brother would fuck me...and do it in front of all my friends. "Wow, my big sister, huh? I hope you're not mad but, well, Michelle, I've dreamed of doing you. Bad, huh?" "Oh, not so bad, I guess. Look how you've turned out. We're all impressed. I just thought I'd try one as big as yours. You might spoil me forever, huh?" Angela moved up off him and I got in front of him and backed up onto his cock. We both began pushing and I felt him slowly enter me, stretching me more than I'd ever been before except, maybe, that one time at a girlfriend's house when we used her mom's big dildo. It was enormous, just the biggest I'd ever seen. It took a while but we each finally got it up inside us. Now, I was pushing an alive, throbbing big cock into me that was attached to my very own brother. And, I had all my college friends watching. I could tell that he was inside a little, I really felt stretched, more than any guy had ever before. But I also knew that there wasn't much of him inside me yet. We both kept pushing and I could feel him slowly going in deeper but still not very far, maybe two, maybe three inches. Then, I relaxed and quit pushing for a minute as he pulled back a bit then pushed in. He just started moving back and forth in small strokes then he began pushing hard again so I did as well. He was huge, at least that's how it felt to me. And the more I got inside me, the larger it felt. The odd thing was that fucking him was two feelings in one. The first was good, really good, his cock was so thick, it felt better than any other I'd ever had. The second part was the fullness. It was kind of uncomfortable. It reminded me of that day with the big dildo. Really, really full. He kept moving in and out of me and, as he did, the really good feelings began to outweigh the fullness; I was really beginning to enjoy my little brother fucking me, even with all my friends watching. Actually, I have to confess, I was beginning to enjoy them watching, yes, I was discovering a bit of an exhibitionist streak I never knew I had. It was mostly quiet and we made love, for actually, even though there were spectators to our coupling, I was feeling loved by my brother, feeling more loved by him than ever before. My friends were all masturbating as they watched, the whole thing would have made a terrific porn flick with my brother and I as the stars. Oh, what would Mom and Dad think, I wondered, almost laughing out loud. "Mmm, I'm getting close, Sis, you are on the pill, right?" "Oh, yeah, it would be a

little difficult to explain this to our parents," I said back to him causing a ripple of laughter, slightly nervous laughter, throughout the room. "I've gotta say, this is the hottest sex I've ever had and it's my own sister. We should have tried this years ago." "Well, if I'd seen that huge cock of yours, maybe you would have had the chance." "Maybe not, then. It really only began to get bigger, I mean really bigger, when I was just about seventeen, so a little over a year ago." "Then we could have eased into this a little more comfortably. You really are big, little brother." "Yeah, I have a big dildo that I keep to let whoever I'm with get that in them first. Some girls just didn't want me after they saw it. But the dildo helps; if they can get that in, they'll always take me." "Well, it takes some work but it sure is feeling better, I'm getting close, just keep doing what you're doing, you're all enjoying it, right girls?" I asked my friends as they all yelled back a big, loud, yes. His strokes were longer, I'm sure he couldn't get it all inside me but I was feeling a lot of it slide in and out of me as his hands gripped my hips. Then, it all came loose, it was like my whole insides just came up and overflowed all over me covering me in the most wonderful feelings as my body clenched and jerked in passion. He pushed hard into me as I felt him throb deeply. "UUH, UUH, UH, umm, mmm, oh, Michelle, oh, wow, you feel so good, mmm, oh, wow, that was incredible. My own sister, oh, man, so hot," he groaned as he kept moving. "You two were beautiful. I never thought a brother and sister could be so beautiful together. I'll just never forget you two," said Cynthia and the rest also told us how sexy, hot and beautiful we were. But I knew the others wanted my brother as well and I was already making mental plans for further fun with my little brother, especially now that I'd had his big cock inside me so wonderfully. Deborah got up as I was getting off the chair and she took my place. Shirley said, "Here, let me get that good and wet before you do Deborah," and she knelt down and sucked the end of Ryan's big cock, leaving it wet with her saliva. He moved his cock up to her as Shirley knelt beside her reaching down to gently open her friend's pussy lips with her fingers as my brother pushed his cockhead into her. She was pushing back as well and we all watched as he slowly entered her, then when he was about a third inside, he began moving back and forth. "Oh, man, you are huge. That's the biggest cock I've ever had, Ryan, you take the record," Deb groaned. "I am so full." He continued to slowly fuck her as we all watched and masturbated. He was up out of his chair, crouched over the back of her, his long, heavy cock pushing in and pulling out as she moaned softly. "Oh, you are so big, omigod, I feel like I'm splitting in two. But, don't stop, it's amazing, my pussy, oh, I'm feeling places I've never felt before. It's just so...oh, UUH, UUH, UUUH, mmm, mmm, oh, wow, I've never...oh, it's the best I've ever...oh, you can fuck me anytime, Ryan, any time at all," Deb groaned. "Anybody else?" my brother asked, grinning widely. "I'll suck it," offered Brenda as she moved in front of my brother and took his cock in her hands. She leaned forward and began licking the head over and over as Ryan sat there, smiling, obviously enjoying every lap of her tongue as we all fingered ourselves. Then she took the tip into her mouth and sucked and sucked and sucked. She mouth-fucked my brother as much as she could but it was obvious she couldn't get all his cock in her mouth, I mean, who could? But she was persistent and, after a while, she had Ryan moaning softly as his hands felt his boobs and soon she had him cumming in her mouth. "Wow, girl, you did it," shrieked Laura and the others followed. Brenda pulled off my brother and turned to show the strings of his cum when she

opened her mouth while we all laughed. Shirley was sitting near him and she was now playing with his cock as Angela moved behind him hanging her arms over his shoulders to rub his chest with her hands. "He's still pretty hard, girls," Shirley called out, "Any more takers?" she asked as she lifted his cock. "No, um, well, in that case," she said as she turned around and offered herself to my brother. Ryan leaned back on his chair, his cock pointing at her as she moved back to touch the tip. Then he wiped the big, domed head of his cock up and down in her slit spreading her juices as she began pushing back on him. We were all watching intently as he started pressing forward as well. Then, suddenly, the head popped into her, as she let out a gasp of air and went, "Ooooh." "You okay?" my brother asked. "Yeah, fine, let's do some more," and they both began again pushing against each other. We all watched as his cock slowly eased inside Shirley, then he pulled back some and began slowly fucking her. "Wow, so full, oh, I may never be the same," she groaned as we all laughed. Ryan's huge cock parted her, split her open, as it went in and out. "Mmm, you are really tight, feels so good," Ryan groaned. "Oh, my pussy, mmm, oh, slow, mmm, yeah, just like that. Oh, so good." We were all watching, masturbating as we did except for Jessica and Brenda who were pretty happy, it seemed, eating each other out on the floor over by the door. To each their own, the rest of us were watching the hottest show on earth and it was starring my very own little brother and his big cock. There were girls in various stages of jilling-off and one heard an orgasm every few minutes, it was a wild sight and a wild night. "Omigod, oh, just take short strokes, Ryan, oh, yes, like that, mmm, better, god, you are huge. But I sure love it, mmm," Shirley moaned as Ryan began taking short strokes as he kept himself deep inside her. I had two fingers running in and out of me as I pinched my nipples with my other hand. This was the most erotic, arousing event by far, by really, really far, of my lifetime. And it was brought on by my very own brother. And, it was my idea. What a night, I thought. I'd not only watched my brother dance naked for my girlfriends, I'd had sex with him. Not just that but in front of ten of my friends. And, even more, I wanted sex with him again. Yes, I wanted more of Ryan's big cock and, having had a taste of incest, I wanted more, lots more. Ryan and I stayed at the girls' house until almost noon the next day. He hardly got any sleep as we all had so much fun playing with his big cock, sucking it, several girls, including his older sister, fucking him again, it was a night to remember, for sure. He left to go back home about three, just enough time for his sister to suck him off. He hardly cummed at all. Since then, he's been emailing and Skyping most of the girls who were there, masturbating on his webcam for us. I've been home twice since and, well, I've gotten so spoiled having his big cock that I'm just not usually as satisfied by other guys. He's coming back for another weekend and, yes, of course, he's going to be the entertainment for us yet again, Ryan and his big cock; it's so nice to have it in the family. And next year, I have him at college with me. Mom and Dad think it will save some money if we rent a place together. Oh, little do they know. Think of all the laundry expense we'll save with just one set of sheets and not having to wear clothes around the apartment. Mmm, I can't wait.
