I came on my wifes face when I knew she hated it. She did the same to me - but different.

It all started when my wife and I were going to go to a wedding back in my old college town. My wife, April, attended college there with me and knew a lot of the locals. With the added company of our old college buddies, it was too much like old times to pass up. When April and I were packing for the trip I noticed she packed the dress that she knew I loved. It was a VERY tight fitting strapless dress that stopped about 2 inches from her knees. The material was so tight that she could not wear underwear with it, which is part of the reason why I loved it so much. Aprils figure showed out in it very well. She is about 5'10" and 120 lbs. Her tits are c cups and her ass is amazing, just big enough and also very firm. We made the drive into town and checked into our hotel. When we got there I was ready to fuck and I tackled her and playfully pushed her onto the bed. While I was removing her clothes she told me she was going to ovulate soon and that I had to wear a condom. I reluctantly told her that I would but that I was not cumming in the condom. She looked at me puzzled but lost her thoughts when my tongue darted into her puss. You have to understand, April loves to have her pussy eaten. Sucked, licked, fucked, you name it - she loves it. I also didn't mind it. She tasted great and I loved the wetness when I was ready to fuck her. After about 20 minutes of me eating her cunt, and after about 4 orgasms for her, she begged me to fuck her. I slid the condom on as she watched closely, begging for me to hurry. After I got the condom rolled onto my 7 inch cock I began to mount her. Her legs were spread wide and her pussy was gaping open. I lowered myself into her cunt. When I had just the head of my cock in her I told her to hold her breath and with one long, hard thrust I was buried inside her. Her back arched and her tits came to my face. She grabbed my arms over the shock of my dick invading her tight cunt. I grabbed her by the wrists and pulled them over her head and held them. I reached under the bed and retrieved the rope I placed under there earlier. With one movement I had her arms tied to the bedpost. She was all mine. I kept my dick in her as I began to suck on her tits. She was going nuts with lust. Her breaths became short as I began to thrust into her, sending her over the edge. Her pussy clamped down on my dick and she started moaning. I started talking to her and said, "Yes, cum on my hard dick. You love it when I fuck your hot, tight cunt. Don't you." She replied, "Yes." "What do you want me to do now?" "I want you to fuck my cunt." I replied, "I'm not cumming in this condom, where do you want it?" "I don't care. Just don't cum in me," she replied. I began pumping her for all she was worth. She was constantly moaning and talking. I started pulling

out to the head and ramming it in her then I began pumping her deep. It wasn't long before I felt my cum rise from my balls. "Open your mouth." I told her. She looked at me puzzled because I know that she doesn't want it in the face. She hates it when I cum on her face. She said, "No," as I pull out of her and clutch my dick and climbed up her chest. Her arms are tied still so she can't move with my weight on top of her. I couldn't take the pressure anymore so I pointed my dick at her beautiful face and let go. The first stream hit her on the forehead. I pumped my dick again and the second hit her lips. The third, fourth and fifth hit her cheeks and rolled down to her neck. She was covered in my cum and I loved it. She was mad as hell however. After I untied her she marched to the shower and got dressed without even talking to me. Soon it was time to leave so we drove to the wedding. April was still pissed and told me that she would get me back before the night was over. I apologised and went about my way for the rest of the day. After the wedding was over the reception was at a local bar so we went there. It was about 9:00 by now and the drinks and the music started going. This was when April seen one of my old buddies. Ben was his name and he always wanted April. She never would give into him because she was true to me. Some things never change and Ben started flirting with April right in front of me. I interrupted them and April said that she and Ben were going to dance. She then whispered into my ear "Payback is a bitch." This is when I knew things were going to get bad. They danced a couple of songs and I knew Ben was getting a treat. April's ass was only covered by the thin material of her dress and she was rubbing it all over his cock. He occasionally reached down to grab her ass when he thought no one was looking. I'd seen it all however and I went to take a piss. The bar had a downstairs area that was blocked off. I knew the owner so I went down there to use the pisser. I knew April didn't see me leave because she was all over Bens cock on the dance floor. When I came out of the pisser I heard voices downstairs and I wondered who it was because this bar had been closed. I was surprised to see April and Ben there talking. April was leaning on the pool table and Ben was standing in front of her. I listened in and heard April say, "I've waited for this for awhile." Just about that time I saw her lower herself to her knees. She unbuckled Ben's pants and pulled out his rock hard cock. I could see it through the shadows and it was a medium sized cock, about 6.5 inches. What was impressive was the size of his balls, they were huge. I knew he had about a quart in them awaiting her. April engulfed his dick with her cocksucking mouth. I froze. I could not move. Then I thought to myself, this must be my payback. She is going to fuck Ben right here, right now. I watched as she blew his cock, sliding back and fourth over his dick. Ben grabbed her head and began fucking her face. She had nowhere to go because the pool table was behind her. Soon Ben tensed up, and April moved away. She grabbed his cock and told him to save his load. Ben looked at her, pissed, and said "for what?" Then with one swift motion, April grabbed her dress and pulled it up over her ass, exposing her soaked cunt. "For this," she said as she fingered her cunt. She also lowered the top half of her dress exposing her tits and turned around and bent over the pool table. She turned around and looked Ben in the eye and said "Fuck Me." Ben stepped closer to April with his dick sticking straight out. April turned and took his dick in her hand and guided it into her hot cunt. Ben grabbed April's hips for leverage and slowly thrust forward. April's head threw back with pleasure and soon Ben was in her balls deep. He pulled out completely and sank back into her again.

Moans filled the room as he began to fuck my wife. I could hear his ball sack slapping her ass as he fucked her. He fucked her for about 10 minutes or so when he said that he was going to cum soon. April told him to stop and she climbed on top of the pool table. He asked her if she was on the pill and she said no. She said it was a good time of the month for her. I thought to myself, "She's lying!" Just then April spread her legs wide and bunched her dress under her ass so that her cunt was elevated. He stuck his cock back in my beautiful wife and pounded her pussy. With each stroke the pool table shook and April was whining. Ben then said again that he was going to cum. All April could say was "Fill me with your cum, shoot it in me!" Then I saw Ben's ass tighten and he started grunting. Several times he grunted, flooding her cunt with his seed. I knew he was filling my wife completely, probably impregnating her. After Ben was done he climbed off and got dressed and got back to the party. He left her there. When we were alone I walked over to April, still lying on the table, legs spread. I stood shocked. Did she plan this? "Did you like that?" I asked. She looked at me and said, "Payback is a bitch isn't it?" I looked at her cunt and her lips were swollen and red. There was no cum leaking out however. I asked, "Didn't he cum in you?" "Oh yes," was her reply. "It's still up inside me because my cunt is elevated, and it can't get out. Lie down on the table." Not wanting to argue I climbed beside her and lay down. She slowly got up and put a leg on each side of my face. I could see directly up her cunt. "Here is your payback asshole," She started fingering her cunt and moaning and she brought herself to orgasm. When her pussy quivered and she started cumming, she lowered it onto my face. Ben's cum shot out all over me. She grabbed my hair and rode my nose and my tongue till she came again. "Eat it!" she said. I knew this was one hell of a payback.
