After having sex for the first time dressed as Vicky, my wife surprises me.

<https://www.lushstories.com/stories/wife-lovers/vickys-surprise.aspx>

I was leaving the hotel where I had just had an evening of being fucked as Vicky. My makeup was a mess and I was walking funny after the pounding Chad had given my hepussy. I called my wife and told her I was coming home with a belly and ass full of cum. She said that was great and that she had a surprise for me when I got home. I got in a cab and the entire ride home I wondered what the surprise was. I was not sure what could surprise me after the night before when she had taken me out dressed up as Vicky and insisted I go with a guy and get fucked like a woman. By the time the cab dropped me off I was tingling with anticipation despite my exhaustion. I walked in the house and called out that I was home. I heard my wife call back, "I am in the bedroom." I walked up stairs and entered to bedroom. The bed was a mess and my wife was sitting on it naked except for panties with a worn out look on her face along with a devilish smile. She said, "Sit down and tell me about Vicky's night." I gave her a long kiss and sat down by her. I noticed it smelled like cum when I sat beside her. I thought maybe I smelled myself. I proceeded to tell her how I went to a hotel with Chad and sucked his cock and swallowed his cum. I then told her he had fucked my hepussy raw and left his seed inside me. She then said she wanted to see my freshly fucked ass. I stood up and took off my dress. I bent over in front of her. "Mmmmmmm," she said, "he really gave you a fucking." She rubbed a finger around my anus and then poked it inside me. "Wow you are stretched out like a little whore." She then started to finger fuck me. After Chad's cock, her finger felt loose inside me. As she was rubbing my prostate I realized that despite my night of sex I had not cum myself. My cock was very hard and straining for release. My wife noticed this and asked if I had cum. I told her no. Her reply was, "If you want to cum, you will have to earn it." She then asked if I was ready for my surprise. After telling her I was she popped her finger out of my ass. "Kneel at the foot of the bed," she ordered. I did what I was told. "Now take off my panties." As I followed her instructions I noticed the aroma of cum I had detected earlier was stronger. Her pussy was also swollen and red. My wife then stated, "We had a girl's night out and we both got lucky. I picked up a man named John and brought him back here. He fucked me while Chad was fucking you." We had often talked about her fucking other men and used it in role play. I could not believe she actually did it. There was a moment of slight jealousy followed by the excitement that my wife had fucked another man. I leaned forward and licked her swollen pussy. She jumped with the tingling sensation. After a few moans from my pussy licking she said, "We left

you something. John planted a healthy dose of semen in my pussy. Not all of it has leaked out yet. You swallowed Chad's cum now eat John's and mine together. I shoved my tongue deep in her pussy. My wife then started pushing inside, trying to get John's cum in my mouth. I could taste a man's cum mixed with my wife's. My cock almost erupted from the excitement. "Oh yes eat that cum from my pussy you filthy slut." My wife said. It did not take long for her to start Cumming. She was moaning and yelling while bucking her hips. As she came I noticed more moisture than usual. I was swallowing the cum mixture from her pussy as fast as I could. After catching her breath my wife said, "Your turn." I stood up and she kneeled in front of me. She took my hard cock in her mouth. She bobbed her head a few times while stroking my balls. After the night I had experienced, it did not take long. "Oh god I am Cumming," I yelled. My semen started erupting from my cock with force. My wife sucked on my cock. She tried to keep all of my cum in her mouth but sine this was my first cum despite several hours of sexual activity, it was a huge load. It started leaking out of the sides of her mouth. After what seemed like a few minutes my load was spent. My wife stood up and kissed me. She had kept my cum in her mouth and she now passed it to me. I shared my own cum with my wife while kissing her deeply. After kissing for a few minutes we broke apart. "What a night," I said. "Yes I think this is the start of something wonderful," was my wife's reply. "So we can do things like this again?" I asked. She responded with a devilish look, "of course, we will do this often."
